Dear Sir:

I am writing to you of events that happened but I must protect myself so I can't give my address.

On 20th of April 66, I went to Casey's Jug Liquors & asked for work & even later ships. I am young looking & so they said, "If you want to make good money, be here tonight at 6:00 P.M. We drove to the man's house (I guess it was his) & at 7:00 P.M. a meeting started. We cited a pledge to communism & discussed business. L.S.D. is going underground to young students who are willing to listen to a lecture on communism & open their minds are "truly open". At the price of communism they will be supplied & they are to interest young students who are unsatisfied with present life.

On 30th April, we discussed a plan

negro rebellion by charging bias.

2) If the Court finds the Deadweight case ~~case~~ to be in favor of Negroes & says the policemen are at fault, then some bands are going to attack American court system by saying the courts are afraid of negro rights & attack the courts.

3) Five members of the National Guard Reserve have warned us that the national Guard is already alerted for action against negroes. Certain groups will say the government is afraid of its governed, and they are to say that the military is taking over. These units of military, army, navy, marines, militia, reserves, are to be called communists and all faith in them lost.

Since you will need special pass, go there at Casey's Big Liquor before 8:00 P.M. & ask for special scratch sheet. You'll then follow the group.
(over)

They have two men running it
& sometimes they go & sometimes someone
else takes us. I can't be there,
I have not used my real name with
you or them for my protection. I violated
the law by bringing the 4 boys &
others to S.S.D. & meetings to overthrow
the government. The liquor store is
next to drug store on E. Imperial off of
Paramount. When these events take
place about what I have said,
especially about the reserve guard,
you'll know I am truthful. Meetings
are always at different times as the
scratch sheet special shows, but it
is always on everyday with the number
ending in 30 - 10th, 20th, 30th.

of youth acceptance of communism not only through L.S.D., but through rejection of adult supervision. The adults say Communism is bad so teens turn to it as a matter of getting even. This meeting was at another man's house.

On May 10th, I brought 7 students to the liquor store who wanted L.S.D. + parental revenge. About 70 new members were there + the "fine points" of communism were ~~dis~~ discussed one hour after L.S.D. was dispersed. I even listened more intently. I received \$50.00 for the ~~peeps~~ I brought in.

On May 20th, with more youths than ever, we discussed the furthering of communism by ~~have~~ youths point out certain things in the ~~Ed~~ ~~Wyle~~ Case:

- 1) If the hearing finds the policeman not at fault, a group is to incite

VIET NAM WHY NOT WIN?

Hilaire du Berrier is an American who knows Viet Nam and has spent thirty years reporting on affairs from the Orient. His recent book, **BACKGROUND TO BETRAYAL — TRAGEDY OF VIET NAM**, published in 1965, has become a handbook for understanding the Viet Nam war.

By December 7, 1941, Mr. du Berrier had already been in Asia more than four years, where he had been writing articles for America on the Japanese invasion of Indochina. Although he served as **Newsweek's** correspondent in Shanghai, his extensive knowledge of Asian affairs is not based merely on journalistic observation.

Mr. du Berrier's experience in Asia is vast and varied. He piloted a courier plane between Hankow and Nanking and operated Free China's underground radio stations. His courage and ingenuity was recognized by a special citation from the Nationalist Chinese government. He was also decorated by the French Government for helping the French resistance group known as **Reseau Mingant**, which was responsible for saving the lives of many downed American fliers. Following VJ Day, he served as Far East Specialist for the American O.S.S.

Much could be written about the three years he spent in the Japanese prison camp in Shanghai and how he defied the torture chamber under Japanese brutality. In 1955 he accompanied the Vietnamese mission to the Big Four conference in Geneva. These are but highlights of Mr. du Berrier's amazing career.

Just prior to this lecture tour, he spent eight weeks in Viet Nam in order to bring you this up to the minute report. This recent trip, coupled with his thirty-year background on affairs from the Orient, qualify him as one of the few real experts on the causes and consequences of this third largest war in American history.

WHEN ARE WE GOING TO WIN IN VIET NAM AND WHY NOT ?

AMERICAN EXPORTS: MONEY, BLOOD AND PROPAGANDA

American troop commitments in Vietnam have now surpassed Korea, making this the third largest war in American history. While our fighting men give their lives to halt Communist aggression in Asia, the streets of America are filled with demonstrators and draft card burners openly calling for a Vietcong victory. Can you imagine public opinion tolerating the Nazis staging such demonstrations during World War II?

Blood and money for medical supplies have been collected at our universities and exported to the Communists. America's college campuses, once the citadels of scholarship and learning are being exploited by beatnik rabble rousers. Self-proclaimed Communists, by creating civil turmoil, are attempting to build a fifth column movement within the United States. All of this is being used by the Communists as their number one propaganda weapon, both within this country and around the world.

OUR POLITICIANS EXPORT: VALUABLE WAR MATERIALS TO COMMUNIST COUNTRIES

President Johnson in his State of the Union message said: "Your government, assisted by leaders in labor and business, is now exploring ways to increase peaceful trade with these countries (of Eastern Europe) and with the Soviet Union." On October 7, 1966, the President revealed his belief that it was in the "national interest" to "build bridges to the East" by granting loans to Communist countries through the Export-Import Bank.

The *New York Times* of October 13, 1966, reported that the government will allow the following items to be ex-

ported under President Johnson's new policy: crude and manufactured rubber, metal ores and scrap, petroleum, gas and derivatives, chemical compounds and products, metal products and machinery, and scientific and professional instruments. *Business Week* of October 15, 1966, announced the list of "non-strategic" exports would include: "airborne navigation equipment and ground and marine radar."

Remember when we sold scrap iron to the Japanese?

CAPTAIN JOHN BIRCH
U.S. ARMY

JOHN BIRCH

WHAT HE LIVED FOR

*"A young man
came to the plains of China
from far-away America.
He came
to teach Chinese people
of the Christian way of life."*

John Birch was his name - 22 years old - a Baptist missionary - caught in the midst of the war with Japan. His career interrupted, on July 4, 1942, he joined General Chennault's American Volunteer group. He lived and worked and fought with the Chinese Army, gaining their respect - preaching Christianity where he could. Walking hundreds of miles through enemy lines, he became the eyes and ears of America's 14th Air Force. Speaking Chinese and disguised often as a coolie, he became a legend in his own time. "Where brave men were common, John was the bravest man I knew," said a comrade in arms.

General Charles B. Stone was more specific, "... Birch, over a period of two years, during which he was almost continually in the field, living under the most primitive conditions and constantly in close proximity to the enemy, achieved phenomenal success."

General Chennault expressed the love and admiration of all who knew him, "I have always felt towards him as a father might feel towards a son."

John Birch taught Chinese children at Hangchow, conducted services with Chinese ministers.

Captain Birch while in sight of targets directed air strikes against the Japanese by radio.

Captain Birch receiving the Legion of Merit from General Chennault.

Burial of Captain Birch, with full military honors, on a hillside on the outskirts of Hsuehchow.

WHAT HE DIED FOR

During the long war Captain Birch never lost sight of his spiritual goal. On August 13, 1945, he wrote in the last letter of his life, "Yesterday, Sunday morning, I held a service especially thanking God for bringing us to the eve of victory . . . Father, do not worry about my 'turning back in the furrow.' As it pleases God to use my voice for preaching His Gospel, I expect to be doing that."

Twelve days later John lay dead in a ditch near the town of Hsuehchow—shot and cruelly bayoneted by "our Chinese Communist allies." His death was known and mourned all over China, for he had become a symbol of Christianity, of true brotherhood and humility, and of the goodness and strength of America. The cruel murder of Captain Birch was a grim warning by the Red Chinese to all who would oppose their 20th century barbarism.

On November 16, 1945, Adeline Gray, who was herself a newspaper woman as well as former instructor at Nankai, wrote John's parents that "Had not the truth been suppressed, Captain Birch's death would have headlined every newspaper in the United States." But the news reached America only through private sources.

The fact that Communism's powerful friends in Washington could hide the truth of his death was a minor evidence of the domination of foreign policy which could smother in the same year the on-the-spot report by Patrick Hurley (our Ambassador to China) of China's betrayal; could completely suppress the official China report of General Wedemeyer; could stop the flow of all military supplies to Chiang Kai-shek, and with raw gall broadcast that Chinese Communists were agrarian reformers and truly democratic. Senator William F. Knowland stated that if the story of John Birch could have been known and understood, it could have made a huge difference in our attitude and the circumstances that led to our engagement in Korea.

It is a testimony to the active Christian faith which John Birch preached that his story is today known and that the symbol of his life, which the Communists tried to stamp out, now guides the society that bears his name.

*"He died at the hands
of the Red Chinese
— first victim
in a long, long war."*

WHY SHOULD I GET INVOLVED?

Recently a young woman was knifed to death on the streets of New York. The assailant made three separate attacks spaced over a period of thirty minutes. The killing was clearly witnessed by thirty-eight people from the safety of their homes. Anyone of them could have saved her by simply calling the police . . . but no one did. When questioned by the police they answered, "I didn't want to get involved." Some watched with curiosity as Katherine Genovese pleaded for her life. Others found the scene frightening and pulled down the curtain.

Is there a moral breakdown in our country today? Have we become so callous that we do not care if another being lives or dies?

How are we reacting to the realities of our world? What do we think of the steady gain of Communism - of the millions killed, tortured and enslaved by this criminal conspiracy? Do we still laugh at Khrushchev's claim that our children will live under Communism? Do we shrug off Cuba? Will we shrug off Mexico? Are we concerned about the certain, documented, real influence Communism exercises in Washington? Do we watch with curiosity? Do we pull down the curtain on these disturbing thoughts? Do we draw the warm covers of apathy around our necks?

The goals of The John Birch Society may be summarized as: less government, more individual responsibility, and a better world. The immediate purpose of the Society is to play a leading role in stopping and routing the international Communist conspiracy.

Under Lenin the Communists adopted a three-step strategy for conquest of the world. They have not departed from it since. The plan can be paraphrased as follows:

1. *Take Eastern Europe.* Except for Greece and the city of Istanbul, this was completed by 1950.
2. *Gain control of the mass and masses of Asia.* Today this is more than 80% accomplished.
3. *Encirclement and infiltration of the United States.* Now more than 50% accomplished.

The Communist program requires the breakdown of existing governments, destruction of law and order, and the creation of chaos. Riots are one tool of Communist take-over. Assassination is another. Communists glorify violence - it is their most persuasive weapon, and the American people are seeing it at work now in our own country.

Communists work for the gradual but complete destruction of the three great human loyalties - to God, to family and to country. Today you are seeing widespread and tragic results of the insidious forces at work to that end. For the Communists simply cannot permit any lasting loyalty except to themselves.

The John Birch Society realizes that Communism will not be stopped by a half-hearted or left-handed effort. For this reason its members are dedicated and completely committed. They demand of themselves more sacrifice and more work than they have ever put into any organization. This, combined with a unity of purpose and a common understanding that Communism is completely counter to the "upward reach" in man - the realization of man created in God's image - gives The John Birch Society its strength and ever increasing influence.

Members of The John Birch Society realize the grim truth that all of us are involved whether we like it or not. The Communists leave us no choice.

WE ARE INVOLVED

Robert Welch, Founder of The John Birch Society

HE HAS STIRRED THE SLUMBERING SPIRIT

The Founder of The John Birch Society is Robert Welch. In the candy manufacturing business all his adult life, he served as a Director of the National Association of Manufacturers for seven years. An author, philosopher and historian, Mr. Welch gave up most of his business responsibilities in 1957 to devote practically all of his time and energy to the study of communism. He formed the first working chapters of The John Birch Society in 1959 and serves today as its leader without pay.

Mr. Welch has stated in *The Blue Book*, "It is my fervent hope that The John Birch Society will last for hundreds of years, and exert an increasing influence for the temporal good and the spiritual ennoblement of mankind throughout those centuries."

Mr. Welch's writings have created widespread comment — some critical. Few were ready to believe him when he warned of the impending Communist take-overs by Castro in Cuba, Ben Bella in Algeria, and Sukarno in Indonesia. But with events proving him correct again and again, his writings are now closely scrutinized by all serious students of anti-Communism.

"There is no question," as *National Review* pointed out, "that he has stirred the slumbering spirit of patriotism in thousands of Americans, roused them from lethargy, and changed their apathy into a deep desire to first learn the facts about communism and then implement that knowledge with effective and responsible action."

Mr. Welch with his wife, Marian.

THE ORGANIZATION

OPEN AND ABOVEBOARD . . .

But Structured To Withstand Planned Attacks

The organization of the Society is simple. A Local Chapter, which has between 10 and 20 members, is led by a Chapter Leader. Usually a Chapter is formed by someone in the neighborhood who is concerned about Communism, and who invites his friends to join with him to hold an introductory meeting. A full time Coordinator gives assistance and direction to the Chapters.

Former Congressman John H. Rousselot (right) is National Director of Public Relations for the Society and Publisher of American Opinion Magazine. He is shown with (L to R) Willard S. Voit, American Opinion Libraries Representative, and Donald Harper, Administrative Assistant to Mr. Rousselot.

A meeting of California Major Coordinator D. Richard Pine and Coordinators

WELCOME!

Anyone sincerely seeking information about the Society is welcome at a Chapter meeting. Meetings are held once a month, usually in a member's home.

Although it has been made unmistakably clear many times in the publications of The John Birch Society, it is well to note again that no member is ever obliged to carry out any action or project the fulfillment of which would be contrary to his conscience."

FATHER FRANCIS E. FENTON, M.A., S.T.L.

ACTION PROGRAMS

The impact of the Society's action programs is due to the fact that the members are well informed and act in unison. The effectiveness of each individual member is multiplied many thousand times by this concerted effort.

Distribution of Anti-Communist Literature

The American Opinion Speakers' Bureau provides speakers for small and large audiences all over the United States. Here Jose Norman, a Cuban exile, speaks on Cuba.

Circulation of petitions on important action such as the impeachment of Earl Warren*

*Impeachment is a proper legal procedure provided for by the Constitution. It is the only legal means of removing from office the members of the Supreme Court who are appointed by the President for life. Thomas Jefferson set in motion an action to bring about impeachment of Associate Justice Samuel Chase of Maryland. Jefferson wrote in 1821, "It has long been my opinion... that the germ of the dissolution of our Federal Government is in the Constitution of the Federal Judiciary." The John Birch Society sees that dissolution of our government in the present decisions of the Warren Court. The Society has provided a packet of information outlining the reasons why Warren should be impeached.

THE COMMUNIST ATTACK

In the fall of 1960 The John Birch Society learned that the Communist Party, U.S.A. was working for the passage of a bill that would take away funds of the House Committee on Un-American Activities so it could not investigate the Communist Party. For a while it appeared they might succeed. Then the Society (and other patriotic groups) began an all-out campaign to defeat this bill. The result was an overwhelming defeat for the Communists in the House of Representatives in 1961, — 412 to 6.

This was perhaps the first tangible evidence of the effective strength of the newly formed John Birch Society, and the Communists decided it must be destroyed. A directive for the destruction of such anti-Communist groups went out from Moscow on December 6, 1960.

The opening official attack against the Society came on February 25, 1961, in *People's World*, an official Communist newspaper published in San Francisco, California. It said there was a new, secret, fascist group which was setting up "cells" all over the United States. The succeeding Communist attacks pulled all the stops out, charging the Society with everything that was evil — hate group, racist, anti-Semitic, Hitlerite, terrorist, ad infinitum. Much of the press picked up the chant, spreading the falsehoods across the nation in a few short weeks.

The intensity and virulent nature of the attacks confused many good people. Some were thoroughly brain-washed. The Communists had used certain trigger words and many Americans reacted in Pavlovian fashion; "hate peddler," "radical," and "extremist" were parroted by people who began to dislike the Society without knowing anything about it.

To disprove the charges leveled against The John Birch Society, Robert Welch requested a thorough investigation be made by an official government body.

Enter (from stage right) the John Birch Society

LOS ANGELES — Suburban newspaper columnists have been devoting uneasy attention recently to an organization known as the John Birch Society, apparently a well-heeled outfit spawned by the Cold War.

The society's founder is Robert Welch, 71, a retired Boston, Mass., candy manufacturer, who set up the organization Dec. 9, 1958, at Indianapolis, Ind. Neither the date or place seem to be of significance, but the society's "evil method of organizing and the role of its founder seems to have aroused imagination.

Welch, who is described as the absolute boss of the society, was born in North Carolina, finished the university there, spent two years at Harvard, and another two at Harvard. He's lived in Boston since 1918.

"Democracy is merely a de-

ceit phrase," Welch pro-

claims on one occasion, "a

word of demagogues, and

a beautiful fraud."

AMID WEALTH

Welch seems to have taken

fright at some of the liberal

decisions of the U. S. Supreme

Court and his "cells" were

commanded to whip pens in a

letter writing campaign cell-

Said Bill Sumner, in The Pas-

adena Independent:

"Locally, and in this area,

the Society seems to be at-

tracting men and women of

some substance. It would not

pay to dismiss them as a group

of families and crackpots,

worthy only of a passing

glance."

Boston Post-Herald, the so-

ciety has picked up recent in-

quiries. Recently,

both communities are domi-

ed by the retired-well-to-do.

On Welch's career are such

veteran enemies of democratic

rights as Jean Charles Man-

ton, T. Coleman Andrews, for-

mer income tax collector;

Spaulding Braden, former Latin

American "expert" of the U.S.

State Department, and Adolph

Heinrich, uneasy ruler of the

House Un-American' said on

Hollywood.

Excluding is done at home

meetings by means of a 1 hour

movie on which Welch appears

alone and explains why there

must be complete obedience to

the leader. That, he says, will

keep out Communists and

others who might create dis-

sent.

Each cell has its director

who in turn consults with a

district director monthly who

transmits orders from above

directives also approved in the

monthly John Birch Bulletin,

edited by Welch.

Letter writing to public of-
fices and to newspapers has
been the main activity of the
Society but lately its attention
has been turned to the PTA,
which Welch feels is too much
to the left.

The society is named for
John Birch, a U. S. Army com-
mander who is supposed to have
died in China 10 days after
V-J day. Welch blames his
death on "Chinese Communist
plots."

LEUTENANT GOVERNOR GUSON M. ANDERSON

ELIOT M. BURNS, President of the Senate
JOSEPH A. REE, Secretary

Additional Note:

The Senate report also covers Mr. Welch's widely criticized statements concerning the Truman and Eisenhower administrations. The statements were contained in lengthy letters in which Mr. Welch queried his friends as to the reasons for the rise of Soviet power in the face of United States supremacy following World War II. These letters, not intended for publication, were written at the time the Eisenhower administration was following some of the liberal positions toward world Communism, examples of which were the failure to remove left wing influences from the State Department, the U.S. moratorium on nuclear testing, and accepting Castro as "the Abraham Lincoln of Cuba."

To answer the critics Mr. Welch expanded, slightly revised the letters, and published them in book form in 1963. In the published book, called *The Politician*, Mr. Welch states that the reader can reasonably conclude that President Eisenhower had been deceived by the Communists.

Although Mr. Welch severely condemns the Truman administration's loss of China and the dismissal of General MacArthur, he is just as critical of President Eisenhower for continuing some of the mistaken policies of his predecessors in regard to Communism. Mr. Welch's concern is understandable.

It is important to note that this book is not literature of The John Birch Society. In fact, at the formation of The John Birch Society on December 9, 1958, the original letters were expressly excluded by its Council.

A thorough investigation of The John Birch Society was conducted by the Senate Fact-Finding Subcommittee on Un-American Activities of the State of California under the chairmanship of Senator Hugh Burns (Dem.). Two years in the making, it was released in June of 1963. Quotations follow:

"The attack against The John Birch Society commenced with an article in the *People's World*, California Communist paper, in February, 1961..."

"Our investigation and study was requested by the Society, which had been publicly charged with being a secret, fascist, subversive, un-American, anti-Semitic organization. We have not found any of these accusations to be supported by the evidence."

"We find The John Birch Society to be a Right, anti-Communist, fundamentalist organization. It was conceived, organized, and is dominated by Mr. Robert Welch, who runs the Society with the aid of a National Council and Advisory Committee."

"Communists are trained to obey a directive or a party assignment, whether they agree with it or not. Members of the Society are constantly told *not* to follow any program or directive unless they agree with it, as may be seen in many of the monthly bulletins sent to the members. When the policies and actions of the Society are no longer supported by a member, he may resign and get a proportional rebate of his annual dues."

"We believe that the reason the John Birch Society has attracted so many members is that it simply appeared to them to be the most effective, indeed the only, organization through which they could join in a national movement to learn the truth about the Communist menace and then take some positive concerted action to prevent its spread."

"The organization is open to people of all religions, all races..."

"From all sources, we found that there was little more secrecy about the society than any other private organization; indeed, that since there had been so much publicity about this movement, in papers and magazines and general circulation, that it is now probably less secret than the Elks Club, Moose Club, or other private group that accepts members by vote or invitation and does not open its meetings to the general public."

NATIONAL LEADERS SAY:

J. EDGAR HOOVER, *Director of Federal Bureau of Investigation*
"I would have no fears if more Americans possessed the zeal, the fervor, the persistence, and the industry to learn about the menace of Red fascism. I do fear for the liberal and progressive who have been hoodwinked and duped into joining with the Communists."

Statement before Committee on Un-American Activities, United States House of Representatives, March 26, 1947

EZRA TAFT BENSON, *United States Secretary of Agriculture, 1953-1960*

"When he (son Reed) joined I expressed my opinion that I was convinced that The John Birch Society was the most effective non-church organization in our fight against creeping socialism and Godless Communism. I also stated that I admire Reed's courage and applauded his decision."

Address Delivered December 19, 1963, Boise, Idaho

STROM THURMOND, *United States Senator*

"I'm not a member of The John Birch Society or any of those organizations. I understand they're against Communism, and I'm for any group that's against it (Communism)."

Greenfield News, Greenfield, South Carolina, February 2, 1962

REVEREND J. L. WARD, *Minister, Nashville, Tennessee*

"The John Birch Society is one of the greatest organizations in the world today. It is not subversive. Its concern is with justice for all and the peace and dignity of everyone."

Statement made August 29, 1964

W. CLEON SKOUSEN, *Former FBI Agent and Chief of Police, Salt Lake City*

"I certainly would have no quarrel with anyone who wishes to disagree with some idea promulgated by The John Birch Society. In a Republic this should be expected. However, no American should stand by and see a legitimate group of American citizens dishonestly ridiculed and smeared at the instigation of the international Communist conspiracy."

W. Cleon Skousen, The Communist Attack on John Birch Society, Page 11

DWIGHT D. EISENHOWER, *Former President of the United States*

"The John Birch Society is a good, patriotic society. I don't agree with what its founder said about me but that does not detract from the fact that its membership is comprised of many fine Americans dedicated to the preservation of our libertarian Republic."

Column by George Todt in Los Angeles Herald-Examiner, March 23, 1964

WHY HAVE SO MANY JOINED?

In the words of the California State Senate report . . .

"We believe that the reason the John Birch Society has attracted so many members is that it simply appeared to them to be the most effective, indeed the only organization through which they could join in as a national movement to learn the truth about the Communist menace and then take some positive concerted action to stop its spread."

In the words of a member . . .

"For some time, I have been growing more and more concerned with the way in which our nation seemed to be heading and as to what kind of a future my children might expect. When The John Birch Society was presented to me, I knew at once that this was what I had been looking for. The people I have met through John Birch are the finest one could hope to meet."

Dear [redacted]

Your letter dated April 5, 1960, has been received, and the interest which prompted your communication is indeed appreciated.

In response to your inquiries, I must advise that the jurisdiction and responsibilities of the FBI do not extend to furnishing evaluations or comments concerning the character or integrity of any individual, publication or organization. The FBI is strictly an investigative agency of the Federal Government and, as such, does not issue clearances or nonclearances.

The FBI has, from time to time, issued literature concerning the menace of communism. In view of your interest, I am enclosing some of this literature.

I have noted your very kind personal comments, and I trust that the work of this Bureau will continue to merit your support.

Sincerely yours,

Mr. J. Edgar Hoover,

Dear Mr. Hlover:

In the past you have been very kind to answer my letters regarding communism. To me - this is the most consecrated battle all America should fight. It is appalling the way they have infiltrated in all branches of our life - the government- especially in the high places - our schools - and churches.

I have been asked to join the John Birch Society that is fighting communism. There have been so many societies springing up that supposedly are fighting this horrible menace but when you look into them they prove to be only a front. The above mentioned society seems to be above reproach but would appreciate it if you would give me your opinion on it.

As I have written before you and your men are truly the unsung heroes of this battle and with all you have to fight in Washington I sometimes wonder how you have the heart to go on. God bless you all - always.

Enjoyed the article about you in last Sunday's Los Angeles Examiner in the Newsweek section. Your praises should be sung from the housetops of all America.

Yours truly,

Dear Sirs,

I am enclosing a pamphlet and literature put out by the JOHN BIRCH SOCIETY, Belmont 78, Massachusetts, for your perusal.

An evening intended to interest some 40 to 60 people in the anti-communist work of this organization left me feeling discouraged over the success of communists in accomplishing their objectives to "take over the world" and discontented with my own government and news agencies that they could be so "infiltrated" and controlled by communists.

The evening went "against the grain" of a deep seated trust in my government and my confidence in a positive approach to solve problems.

In all probability there is no real basis for my wariness of this Society, however I would appreciate knowing whether or not it is an approved organization, if you are in a position to tell me.

Sincerely,

/s/ [REDACTED]

Facts of complaint

The complainant advised that he had attended a meeting on the evening of May 11, 1960, in a private home of a person whose name and address he does not know, but in Los Angeles, wherein the John Birch Society had a meeting wherein a film was shown. After viewing this film he concluded that perhaps the John Birch Society was a Communist front organization, inasmuch as the film first appeared to be very anti-Communist but later in the film tore apart Democracy. It was stated that American Democracy was the demagogue of our time; that all its leaders in the Government are Communist; that Senator KENNEDY was helping the Communist; that what the United States should do is to do away with NATO and Summit Conferences. The complainant stated that one of the requirements of belonging to this organization is that the member should take orders without questions, such as when they are told to write to their Congressman and state such and such they are to do as they are told. The complainant stated that he does have a program of the meeting at home, which was not immediately available to him, but that he would mail into this office the program in order that some names might be obtained from it.

If I were able to speak to you I most likely could remember more information, but what is here has convinced [REDACTED] and myself that the Society is definitely anti-democratic if nothing else.

Thank you for your letter of May 12, 1960, and its enclosures. The patriotic interest which prompted you to make this information available is sincerely appreciated.

Although I would like to be of service, the FBI has never compiled such a list as you request. The thought occurs to me that you may be interested in securing a copy of the pamphlet entitled "Guide to Subversive Organizations and Publications," prepared and released by the Committee on Un-American Activities of the U. Dear Mr. Hoover:

During the last few weeks, my attention has been called to an organization called "The John Birch Society". It is composed of a group of people who are interested in upholding and restoring basic American principles of government. I am very favorably impressed with the group and the literature that I have read that they are responsible for. However, a friend who learned of my interest in the Society has declared that she has heard that it is Communist inspired. I find this hard to believe but certainly do not want to be a part of any activity that is so inspired.

My friend has asked me to inquire as to your opinion of it, so I would appreciate it very much if you will send me any information you may have on it.

Respectfully yours,

Gentlemen:

I have recently become very interested in the John Birch Society which, I believe, was originated by Mr. Robert Welch of Belmont, Massachusetts.

I would appreciate very much knowing something concrete about this organization (not merely that it does not appear on the Attorney General's list), and the sources which the Bureau would recommend for my inquiring into the background of Mr. Welch. I am very much in accord with the views, objectives and operations of this society, but because of the manner in which they operate, it is imperative to me that I know much more about the gentlemen heading up the organization. I also believe that there must be some way for a person to appraise people and organizations which influence our political views, and hence I am turning to the Bureau for guidance.

Thank you in advance, I will await your reply.

Sincerely yours,

ROBERT WELCH

Born December 1, 1899, on a farm in Chowan County, North Carolina. Ancestry, full of farmers and Baptist preachers, traceable to one Miles Welch who came to this country from Wales in 1720. Educated at University of North Carolina (four years), United States Naval Academy (two years), Harvard Law School (two years), and school of hard knocks (about forty years). Came to Boston from North Carolina in 1919. Has lived in Belmont for the past twenty years. Has one wife, two sons, a Golden Retriever dog, and fourteen golf clubs -- none of which he understands.

Has spent a great part of his life getting from where he was to where he wasn't, for reasons which seemed worthwhile at the time. This includes two trips to England specifically to study the effects of the Socialist government; one trip around the world; and fairly extensive additional traveling in North America, South America, Europe, and Asia.

Author of THE ROAD TO SALESMANSHIP, published in 1941 by the Ronald Press Company; of MAY GOD FORGIVE US, published in 1952 by Henry Regnery Company; and of THE LIFE OF JOHN BIRCH, published in 1954 by Henry Regnery Company. Is editor and publisher of AMERICAN OPINION, a monthly magazine which reviews current events and appraises contemporary leaders on the world-wide stage. Has done much public speaking, and will climb on a soapbox to argue against the evils of socialism whenever anybody will listen.

Has been in the candy manufacturing business all of his adult life. Was for many years Vice-President, in charge of sales and advertising, of James O. Welch Company, with factories in Cambridge, Massachusetts, Mansfield, Massachusetts, and Los Angeles, California; and of its subsidiary sales corporations in Atlanta, Pittsburgh, Chicago, Los Angeles, and Seattle. Is a director of one bank, and has served as a director of several other business corporations.

Was a member of the board of directors of the National Association of Manufacturers for seven years. Also served three years as a regional vice-president of NAM, and two years as chairman of its Educational Advisory Committee. Has been active in many other business associations and committees, and in many community and educational activities -- including service on the Belmont School Committee.

As of January 1, 1957, Mr. Welch gave up most of his business responsibilities -- and most of his income -- in order to devote practically all of his time and energy to the anti-Communist cause. Believes that the only thing the Communist now fear is having the truth become widely known, to the American people, about the methods and the progress of the whole international Communist conspiracy. For his readers or his listeners, Mr. Welch simply puts together clear but separate facts about the Communist advance, so that their significance becomes more apparent. Through this method he is trying to wake up as many of his fellow citizens as he can, to the horror and the imminence of the dangers which they face.

But this presentation has also been compressed into a six-hour recording, duplicates of which are now being played back to small groups almost every day. (With short recesses, or coffee breaks and a luncheon break, the actual time required is about eight hours.) In this presentation Mr. Welch attempts: (1) To outline the nature and the frightening advance of the threats against our nation, our religion, and our civilization; (2) to evaluate these dangers, and place them in their proper perspective, against the backdrop of world history and the rise of western civilization; (3) to set forth a positive philosophy and program to which men of good will, religious ideals, and humane traditions may rally with confidence and determination; (4) to offer leadership which can make the dedication of such men and women more constructive and more fruitful; and (5), to describe in detail the organization, function, and procedures of The John Birch Society.

Why haven't I heard more about The John Birch Society?

Partly because it is still so young. But mainly because we avoid all publicity as far as is practicable. It is our purpose to build strength and understanding, not to create noise.

What is expected of its members?

A great deal. You should not join The John Birch Society unless you are truly dedicated to the cause of less government, more responsibility, and a better world. Many of the specific actions requested of our members must, necessarily, seem relatively unimportant. But the sum total of them all, faithfully carried out by all of our members, will become increasingly important indeed. Not one of us can be afraid of the drudgery of actual work, for "without drudgery all of our dreams are dust."

Enclosed with this memorandum will be a bulletin of the Society for a recent month. That bulletin will make clear, by illustration, some of the specific things, and the kind of things, our members are asked to do. But one bulletin can tell only a small part of the story. And all bulletins together, for many months, would merely emphasize what we want our members to do, without stressing what we want our members to be, which is more important. The ennobling aspects of membership will become apparent only with time, and with a full understanding of the Society's aspirations for its members and itself.

How may I join The John Birch Society?

You may apply for membership in the Home Chapter at any time, by signing the enclosed form and mailing it to us with a year's dues. If the application is not approved, of course your dues will be returned. If it is approved, you will be welcomed into a brotherhood of men and women devoted to an inspiring cause.

As soon as a local working chapter is established in your area, your membership may be transferred to that chapter if you wish. Or if you become sufficiently interested and dedicated to act as a Chapter Leader, and to form a local chapter yourself, we shall be glad to give you all necessary information, guidance, and cooperation.

THE JOHN BIRCH SOCIETY
Belmont 78, Massachusetts

A preliminary and condensed statement

July 4, 1959

What is The John Birch Society?

It is an organization of Americans who have voluntarily joined together: (1) To combat more effectively the evil forces which now threaten our country, our lives and our civilization; (2) to prevail upon our fellow citizens to start pulling out of the deepening morass of collectivism, and then climb up the mountain to higher levels of individual freedom and responsibility than man has ever achieved before; and (3), to restore, with brighter lustre and deeper conviction, the faith-inspired morality, the spiritual sense of values, and the gloriously humane traditions, on which our western civilization has been built. The long-range objective of the Society has been officially summarized as less government, more responsibility, and a better world.

What is its origin and history?

The John Birch Society was founded by Robert Welch, at a meeting in Indianapolis, on December 9, 1958. It now has local working chapters in six states, and additional chapters are being formed every week. Its immediate goal is fifteen hundred working chapters by December 31, 1959.

There is also a Home Chapter, which maintains contact with its members and coordinates their activities entirely by mail. There are already members of this Home Chapter in about twenty states, and the list includes many of the most influential and highly regarded men and women in our country.

Who is John Birch?

John Birch is dead. He was a young Christian missionary, from a farm near Macon, Georgia, who was in China when we entered World War II. He joined Chennault's forces as a volunteer, organized Chennault's intelligence, rose to the rank of captain in the U. S. Army, and served with unsurpassable bravery and brilliance throughout the war. Ten days after V-J day, while in uniform, on a peaceful and official mission for our government, he was brutally murdered in cold blood by our "allies," the Chinese Communists. You have probably never heard of John Birch, simply because the Communists in Washington planned it that way. We believe that his short but outstanding and memorable life so typifies the best of America that we have named our organization in his memory.

How are chapters of the Society formed?

In order to explain, fully and clearly, the background, methods, and purposes of The John Birch Society, Mr. Welch prefers to hold two-day meetings. For we are digging far more deeply into the problems we face, and building far more solidly in our coordinated effort to overcome the destructive forces around us, than the loose word "organization" is likely to suggest. And many of these full two-day meetings have already been held with small groups in different parts of the country.

JOHN BIRCH SOCIETY, INC.

A source who has furnished reliable information in the past has advised that there are several chapters of the JOHN BIRCH SOCIETY in the Los Angeles area, some in the general Pasadena section (specific number not known to source) and similarly in Beverly Hills, Long Beach, San Fernando Valley, Palos Verdes Peninsula, as well as a chapter in Santa Barbara, California.

It is source's understanding that the Society has two paid coordinators in the state of California and several voluntary unpaid coordinators. Such a paid coordinator is [redacted] Berkeley, California, who travels through the state on Society business. The source stated he understands an assistant or voluntary and unpaid coordinator for JBS is [redacted] Palos Verdes Estates, a pilot for American Airlines. [redacted] is attached to Chapter 88, Palos Verdes Estates.

Source furnished a recent informal notice signed by [redacted] encouraging Chapter 88 members to do a number of things, such as write to [redacted] United Nations, New York City, to ask, "Who murdered BANG-JENSEN?" [redacted] also urged members to write to Senator THOMAS J. DODD, Senate Office Building, Washington, D.C., encouraging an investigation of the BANG-JENSEN case by the Senate Internal Security Committee. [redacted] letter further urged JBS members to contact three major airlines (American, United and Eastern) to place the weekly political newsletter "Human Events" in their passenger planes.

Other activity urged by [redacted] is to "mail cards and letters regarding the Summit Conference--'Stay away U.S.A. The summit leads to disaster.'" JBS Chapter 88 members were also urged to have lists of conservatives ready for the next chapter

meeting and to read listed books: MATT CVETIC's "The Big Decision," CROCKETT's "Roosevelt's Road to Russia" and WIDENER's "Behind the U.N. Front."

Source said another person active in the JBS in the Palos Verdes area is [redacted] with the Union Carbide Chemicals Co., division of Union Carbide Corporation, 3651 Del Amo Boulevard, Torrance, California.

This source also advised that he understood that the JBS Beverly Hills chapter includes the following members: JOHN WAYNE, noted Hollywood producer; [redacted] nationally-known movie columnist; RONALD REAGAN, prominent actor and television personality; [redacted] Hollywood actress; [redacted] Hollywood actor; and [redacted] Hollywood screen and playwright.

Another source who has furnished reliable information in the past has advised that the initial Los Angeles JBS Chapter No. 48, recently founded in Pasadena, California, has generated in the past months to include the following: Pasadena - two chapters; South Pasadena - one chapter; Altadena - one chapter; La Crescenta - one chapter; San Marino - one chapter.

This source stated attempts have been made in the above-mentioned Pasadena area specifically to interest members of the Junior League, which comprises among others young matrons of socially-prominent families, and that some success in this regard was made.

This source additionally advised that the original tapes of ROBERT WELCH's discussion of the foundation and aims of the JBS in 1959 have now been converted to a sound film currently in use to interest potential recruits.

Source further advised that a recent notable member of the JBS in the Los Angeles area is [redacted] of PHILIP CHANDLER, Executive Vice President, Times Mirror Co. 202 West First St., Los Angeles. Source described [redacted] as an enthusiastic and diligent JBS addition. The CHANDLER family in Los Angeles has been long identified with the "Los Angeles Times," metropolitan daily newspaper.

Re: JOHN BIRCH SOCIETY, INC.

This source also indicated that one of the major activities of the JBS in recent months was nationally to alert legislators and principals of the federal government by mail and otherwise to avoid a Summit Conference with the Soviet. Source said that mail in the thousands was used by JBS in this campaign.

Another source who was in a position to furnish reliable information but with whom insufficient contact has been had to determine reliability has advised that he attended a recent two-day recruiting session of JBS in the Los Angeles area chaired by ROBERT H. W. WELCH, Jr., founder of the Society.

About forty people attended from 9:30 a.m. to 6:30 p.m. with WELCH discoursing lengthily on the aims and concepts of the Society. This source recognized among those present BRUCE REGAN, California State Assemblyman from Pasadena, and [REDACTED] General Plant Protection Co., 2515 West Seventh St., Los Angeles.

Source noted that Mr. WELCH declined to state the number of members or the identity of local chapters of JBS.

WELCH emphasized the Society's concept of less government, more responsibility with a resultant better world.

According to source, dues are \$24 annually or \$2 a month; and chapter membership is limited to twenty, upon attainment of which a new chapter is formed.

Hon. Cecil R. King
House of Representatives
Washington 25, D. C.

My dear Mr. King:

Two days ago my husband and I were invited to a presentation by some republican and so-called "conservative" friends of ours. It left us quite worried and we believe it might be of interest to you and similar minded members of Congress to hear about this and perhaps cast a critical eye in the direction of a certain budding organization.

It was a presentation made by the "John Birch Society" which is headed by a Robert Welch, retired former President of the Welch Candy Company. It is in form of a motion picture in which Mr. Welch gives a 2 hour lecture on the aims and structure of his organization in an effort to win members.

The basic overt aims are very admirable indeed. The Society is supposedly engaged in a crusade for the fight against communism and the influence thereof within the United States. Mr. Welch claims the support of many fine known patriots and quotes from legitimate and worthy publications. His presentation is backed by a tremendous detailed knowledge on the subject of communism, by some irrefutable facts and statistics, and by the undeniable need of doing what he proposes to do, namely to combat communism and to educate the American Public as to it's dangers.

However, neatly sandwiched inbetween facts and figures, Mr. Welch comes out with blatant half-truths and un-truths in an effort to prepare his audience for his final coup: to get them to sign up enthusiastically as members of his organization, as ambitious fighters against communism, as patriotic defenders of their country, and as providers of a secure future for their children. Nobody could possibly want to abstain from such noble ambitions!!!!

But, ----and here is where official investigation into his organization becomes greatly desirable: just what are these good people all signing up for??? An organization with an authoritarian internal structure (for the sake of expedience, they say), not unlike cells. It has a platform that recommends extreme isolationism, exclusion of all types of debate and seeks to eliminate such institutions as the United Nations, as well as all social advances, any efforts toward international understanding, and even suggests the

eventual abolition of the Republican Form of Government. Anything that disagrees with extreme rightist views is labeled: aiding and abetting the red cause, etc. For example, Mr. Welch claims that practically everyone in authoritative position in the U. S. Government during the last 30 years has been participating in the "World-wide Communist Conspiracy". His slogan is: "Less Government, more responsibility, and a better World!"

Now I, a naturalized American Citizen, have lived under Nazi rule during my formative and young adult years. If anyone can smell the rat of fascist agitation, it is I. For years the principles of Nazism have been drummed into me, I have been forced to hear every speech of Hitler's and Goebbels'. I was forced into Nazi Youth organizations. And I have felt the results of such a totalitarian type of Government in my life and on my body. I do not want my children to go through the same experience.

Mr. Welch employs the same insidious tactics that made Goebbels famous. I am afraid he is luring many an innocent do-gooder into being a card carrying nucleus of a vicious organization. The Nazi Party at first claimed it was only trying to "combat communism and create a better life." I have heard the pleas of former Nazi Party members that all they wanted was to do good. I have known the characters of some of these and I would vouch that they are telling the truth. I also would vouch for some of Mr. Welch's new disciples that that was all they too want. When will enough of them be caught in the web that might become dangerous to the rest of us U. S. Citizens??

I also want to mention that both my husband and I are decidedly anti-communist. My husband is an ex-Military Intelligence officer now engaged in space research and I escaped with the Russians at my heels from now communist dominated areas in East Germany. I left there property and friends, I have seen Communism in action. This, I believe, will vouch for my feelings in the matter. Also, after the end of the war in the American Zone of Occupation I went on record and officially signed statements pointing out to U. S. Military Authorities places of communist agitation. If nothing else, this surely got me on the communists' black lists.

These lectures of the John Birch Society are held to small groups of under 50 people. They can be attended by invitation only, and those attending must be previously screened as being "conservatives". My husband and I, who make no bones about being democrats got in there by mistake through invitation by our republican "sparring partners"----who'll do anything to bring about articulating discussions (that they got !!) ---- The Society does not want the Press to be notified or receive any publicity. If that isn't undercover, I don't know what is!?

I am not sure, Mr. King, just HOW you will be able to see that lecture, unless it is via disguise or incognito, but it would be worth all kinds of trouble to try. That is, if you are not already familiar with it. There is a publication called "American Opinion" published by Mr. Welch, that I have studied briefly. It gives the appearance of being more above-board, albeit expressing extremely rightist views. It is mainly the structure and character of the John Birch Society that leaves one to wonder, as well as the fact that many of the things they are vehemently against have nothing to do with communism.

Below I will write the name and address of the local representative. I would rather not be quoted by name to this fellow, since I would not like to embarrass my friends. The meeting was held in the building of the Westchester Women's Club --- no connection with it. Neither have I. So much of this for all it might be worth to you.

Respectfully yours,

(IH)

[] This is to record that on 6/29/60, USA []
[] called and stated that he had been advised that there
had been a meeting in the Wilshire area of approximately 30
individuals, which meeting had been sponsored by the JOHN
BIRCH SOCIETY. He said that it was his best information that
the society had heard a tape recording which was prepared by
WELCH, organizer of the JOHN BIRCH SOCIETY, and the essence
of this tape was that Communism was taking over the country
and now was the time for concerted action. [] also
stated that a [] (ph), who allegedly is an M.D.
identified with the California Society of Surgeons, gave a
talk on mental health and talked about the value of concerted
action now to take care of mental health diseases.

[] said that during the course of the meeting
there had been some reference to the FBI, but it was his infor-
mation that the reference to the FBI was in the form of a state-
ment that certain information had been submitted to the FBI
concerning Communism, but the Bureau had taken no action.

[] said it was his information also that Mrs.
HERBERT LAUGHARN was a leader in the JOHN BIRCH SOCIETY in that
area.

[] said he was submitting this information to
the Bureau so that it would be aware of the operations of the
JOHN BIRCH SOCIETY.

SUBJECT: Santa Barbara Activities of the John Birch Society and Presentation Film
by Robert Welch

1. The local attendance at the meeting was in the vicinity of 70 persons (35 husbands and wives).

The meeting was held on the evening of April 15, 1960 at the home of Dr. Horace F. Pierce of Vista del Mundo Ranch, 3800 block Foothill, Santa Barbara.

The local charge-d'affairs appears to be Dr. Granville F. Knight of 755 Rockbridge Road, Montecito, who is listed in the Society's books as a Council member.

The duties of the Council are stated as three:

- (1) To show the stature and standing of the leadership of the Society;
 - (2) To give (the founder, Robert Welch) the benefit of the Council's advice and guidance, both in procedural or organizational matters, and in substantive matters of policy;
 - (3) To select, with absolute and final authority, a successor to (R. Welch) as head of the John Birch Society, if and when an accident, "Suicide" or anything sufficiently fatal is arranged for me by the Communists --- or I simply die in bed of old age and a cantankerous disposition.
2. The attendees were approximately two-thirds composed of the type known as "First Families", that is, mature to elderly people whose position in society is relatively secure, either because of money or family or both. The balance, about one third, were of younger persons, who could be described as probable "Comers", that is, young people who will probably attain in later years that position in society now held by the First Families. It was interesting to note that the only "Comers" present, who were identifiable as non-sons of present first families were in positions dealing with mass media communications.^{1/}

It is fair and accurate to say that all the persons present who were engaged in conversation were of the political beliefs inaccurately labeled extreme conservatism, and more accurately describable as historic constitutionalists or or republican, as distinguishable from Republican as an existing political party.

3. The objective of this meeting was to hear a three hour presentation, a condensation of a two day presentation, by Mr. Robert Welch of Indianapolis, Indiana, the founder of the John Birch Society, and after the presentation to sell literature describing the works and aims of the Society, and to sign up new members.

The talk by Mr. Welch was excellent, accurate, forceful and, in my estimation, very effective.

^{1/} This may well be a totally unfair and inaccurate analysis. I knew almost no one, and this statement depends upon hearsay as to who was who, and what he did.

Basically, Mr. Welch recites the actual history of the growth of Communism, and extrapolates this background to show the

- (1) present danger to the U. S., and
- (2) the rapidly increasing future danger to the U. S.

Just a few words about the talk:

- a. Mr. Welch's historical data, to the limit of my knowledge, was accurate and exact. He did cite data that I had not previously been aware of, but at least two-thirds of his presented data is capable of being checked in any library.
- b. The added data cited did support a somewhat more alarmed response than that response normal from the common-knowledge data. This added data is certainly capable of being responsibly checked -- perhaps not easily outside of Government intelligence circles, but easily and certainly within such circles. The data is of a nature that denial of its existence by those charged with the safety and security of the National existence of the U.S.A. must be taken as an indication that something is terribly wrong.
- c. Mr. Welch extrapolates from this fact-supported position to the present and future danger of the U.S. He believes--
 - (1) The Soviets will not try to conquer the United States by military means.
 - (2) That the Soviets have a useable, though not preferred plan, to foment civil strife within the U.S. to weaken our country to enable a Communist-lead group to take over the Government from within, that this plan is in operation today and methods and plans for its ultimate implementation exist and that this is indicated by the actions occurring in the civil rights questions and in Communist control of unions absolutely vital to communications and control, and transportation and mobility.
 - (3) That the preferred Soviet plan, also being implemented, is to so control the U.S. from within and without, that the U.S. will no longer be interested in resisting the world wide advances of Communism.

This plan has two modes of implementation:

- (a) Induce gradual surrender of U.S. sovereignty, piece-by-piece, to various international organizations, while the Communists take over those international organizations.
- (b) Convert the U.S.A. into a socialistic nation of similar outlook to that of the USSR in order to lessen the U.S. need to respond to Communistic advances throughout the world.

4. An analysis of the talk by Mr. Welch must conclude:

- A. The talk appears factually accurate, and the data is susceptible of proof.

- B The extrapolation covering present and future danger to the continued national existence of the United States, in an historic constitutional republican sense, is not unrealistic. It is a far more "alarmed" extrapolation than the published official views of the present administration.^{2/}
 - C Mr. Welch's balancing of the position of Russian military power as an effective weapon of foreign policy is faulty. This in turn leads to a dangerous disregard of the military force threat to the United States
 - D. Mr. Welch is apparently a truly dedicate man of impeccable background, and unquestionable patriotism. A well-educated man who has been quite successful in the American business world, he has resigned from most of his business interests, at considerable monetary sacrifice, to conduct a crusade against the threat of enveloping Communism.^{3/}
 - E. No reasonable basis appears for differing violently with either the facts or the engendered alarm presented in the talk.
- 5 At the conclusion of the talk several pieces of literature were offered for sale which were reported to make more clear the position of Mr. Welch and of the John Birch Society with respect to the threat to the United States described in the talk and with respect to the aims and objectives of the group's plan to combat this threat.

This literature included

The Blue Book of the John Birch Society, 181 pgs , copyrighted 1959 by Robert Welch. Publisher undesignated

The John Birch Society Bulletin for February, 1960 by Robert Welch. Publisher undesignated Society address - Belmont 78, Massachusetts.

The Scoreboard, a 4 page reprint from July-August, 1959 American Opinion, with updating footnotes to the present (?), showing the estimates of "Communist Influence as a Percentage of Total Control" of 105 national governments throughout the world. Two examples (11) Britain, 40-60%, and (100) United States, 30-50%.

American Opinion, January, 1959, by Robert Welch, One Hundred Steps to the Truth, a special feature reviewing 100 books setting out facts in detail cover the present and future danger from Communist actions, infiltrations and plans. An order blank on The Book Maker, Box 101, Murraby Hill Station, New York 16, New York, is suppl ed for 96 of the listed books; the other four are Governmental publications.

- ^{2/} If I must personally choose as to which view of National danger is more accurate, I would choose Mr. Welch's extrapolated view. Furthermore, this view appears to me to represent a SAFER position for U.S. policy planning against all danger
- ^{3/} Born and educated in North Carolina of Baptist early American pioneer Welch stock (1720). Education includes four years University of North Carolina, two years U.S. Naval Academy, and two years Harvard School of Law. Became Vice President, Sales and Advertising of Welch Candy Company, was a member of Board of Directors of the National Association of Manufacturers for seven years, served three years as Regional Vice President NAM, and two years as Chairman, Educational Advisory Committee of NAM. Has served as Director or on Boards of several U.S. corporations

American Opinion, March, 1960, by Robert Welch, a reprint of The Life of John Birch (Robert Welch), published by the Henry Regnery Company, Chicago, 1954. The published original reviews of the manuscript of the Life of John Birch include: "This book is a strong publication pointing to the evils of Communism both within and without our Country. It should be read by all Americans who love our Country and want to preserve it." - George E. Stratemeyer, Lt. General, USA, Retired

"I wish your books could be placed in every library in the United States. As a matter of fact, they should be required reading in grade school, high school and college." - Claire Lee Chennault, Major General, U.S.A.F., Retired.

and,

"Amazingly, there were in Washington responsible officials who were willing to suppress news of the murder of an American officer, apparently to prevent the American people from rising in their wrath and vetoing further appeasement of Communism. Not a great deal can be said for the judgment, discretion and reliability of those responsible for suppressing the tragic and revealing story of Capt. John Birch." - Saturday Evening Post Editorial, January 22, 1955, based on this book

Why People Become Communists, a 34 page reprint from February, 1958 American Opinion, by the editor of American Opinion (Robert Welch), available from American Opinion, Belmont 78, Massachusetts

This document appears to be an incisive, realistic and pragmatic analysis of some general bases of motivation and motivation-compulsion reaction. It is well worth including as a reference addendum to texts on applied psychology.

An analysis of the general content of this literature strongly supports the same analysis as presented in Section 4. Covering the talk by Mr. Welch -- with one very important and major exception --

That exception covers Mr. Welch's plan to combat the Communist threat as the plan is set out in Sections 4 through 8 of The Blue Book of the John Birch Society.

Mr. Welch proposes to become "The Founder" of the John Birch Society, which Society is to be a monolithic body which will operate under completely authoritative control at all levels 4/

Now Mr. Welch discusses briefly and discards as inconsequential the proper fear of tyrannical oppression of individuals by such an authoritarian organization, since he states the Society is to be a voluntary organization. However, it is realistic to point out that

- (1) An organization, voluntary in the first instance and of an authoritarian nature may easily become non-voluntary as regards the rights and liberties of an individual

4/ Page 150, the Blue Book of the John Birch Society, and see page 117 where the need for leadership is reputed to authorize the assumption of leadership by one man, who thereafter authorizes force as one of the methods of furthering his own plans, for the group

5/ I am sure most "good Germans" of the Weimar Republic agreed with what they understood of Hitler's position when he was named Chancellor in 1933(?), and I expect that Hitler's Brown Shirt organization was a voluntary organization in its inception

- (2) The John Birch Society is organized specifically to exert effective influence on the U S political scene, in which case every citizen of the U S. will be effected to one extent or another by such Society. That the Society should represent one man's views so completely by its organizational structure represents a very real danger to the future liberty of all Americans 5/

Now these observations should not be construed as derogation either of Mr. Welch nor of the John Birch Society. They are, in fact, simple observations of a possible danger in any authoritarian organization. Examples of the excesses of authoritarian organizations range from the Holy Roman Church, through innumerable kingdoms, through the dictatorships of our days and include many, many business organizations. It is in this context that all authoritative organizations are suspect -- including the John Birch Society, which has as its avowed aims and slogan "Less Government and More Responsibility".

Now Mr. Welch advances some persuasive arguments as to why the structure of the Society was chosen to be based upon an authoritarian model. These arguments obviously have persuaded many serious minded people -- namely present members of his organization. I will not belabour the point but merely state that in spite of the fact that the aims of the Society seem honorable, and the facts presented indicate a terrifying urgency, and the position of Mr. Welch appears justifiable under certain special circumstances, I am not persuaded that such an organization as Mr. Welch proposes is in turn without danger, though I desire to move in the same general political direction that he and his organization tend toward

Re SAC letter 60-3 dated 1/23/60 (C).

On June 20, 1960, [redacted] former Special Agent, Director, American Security Council, [redacted] Chicago, Illinois, furnished this office a copy of "The Blue Book" of the John Birch Society and of "The Politician," together with one photostat copy each of a four page pamphlet explaining the John Birch Society, and a report dated April 18, 1960, entitled "Santa Barbara Activities of the John Birch Society."

At [redacted] request, "The Blue Book" and "The Politician" were returned to him. One copy each of the report of Santa Barbara activities are being furnished herewith as an enclosure to the Bureau and Los Angeles for information.

According to information available to [redacted] there apparently are three Chicago chapters of the John Birch Society, one of which has been meeting at Glenview, Illinois. The meetings at Glenview are held every other Monday night. Three such meetings have been held which have been attended by approximately 200 people. [redacted]

[redacted] Glenview, on expressing doubts about the society at one of the above meetings, was given a copy of "The Politician" and told that that book is given out only when a member of the society is "qualified." After reading the book and expressing her disgust with the material, [redacted] was told by [redacted] leader of the meeting, that if she quoted any part of the book at the meeting he would completely deny existence of the book and would discredit her. According to [redacted] after the next Glenview meeting, the chapter is to be broken up into anti-Communist "cells" composed of 10 to 20 people, and that the society aims at a million members nationally.

On 8/3/60, ADOLPH MENJOU, well-known motion picture, radio and TV personality, appeared as a guest on the TOM DUGGAN show which is viewed nightly by residents of Southern California over Channel 13, station KCCP, Los Angeles. TOM DUGGAN is well-known to viewers in Chicago, Illinois, and Los Angeles, California, and is considered to be a controversial television personality.

MENJOU, during the course of his interview with DUGGAN, ranged far and wide on matters of current interest to the American public. He is an avowed anti-communist and spent a considerable portion of his talk on communism. [REDACTED] advised MENJOU told the TV audience that he could not get a job in the motion picture studios because he is an avowed anti-communist. He stated most of the studios are controlled by communists, noting that the studios have a black list that is working in reverse, i.e., against those people who have denounced communism. He recalled that when the "Hollywood Ten" were convicted "they" should have convicted the entire "Hollywood Nineteen" but someone in Washington, who was highly-placed, interceded and would not let the additional nine be convicted. He indicated he had gone to Washington at his own expense to fight this move, but to no avail.

He told DUGGAN and the TV audience that communism would be wiped out of the studios in two days if the American Legion would bring economic pressures to bear against the

theatres. However, even the American Legion is subject to economic pressures, and for this reason cannot take effective action against those studios who hire communists. He alleged that communism in California is stronger than most people think and he fears for his children and their children. He cautioned the American people to wake up before it is too late. He once again attested to his great admiration for the late Senator JOSEPH McCARTHY and the fine work accomplished by him in the field of communism. MENJOU spoke highly of Director HOOVER and mentioned that he had been in correspondence with Mr. HOOVER on many occasions. He did not mention the FBI by name, however.

MENJOU stated his statements could be "backed up" and on occasion mentioned "Counter Attack" and "Red Channels." He was particularly critical of the communist influence in New York Theatre circles. He mentioned but a few names as individuals who had communist connections. Among these names were the names of DALTON TRUMBO and EDWARD DMYTRYK, both members of the "Hollywood Ten."

MENJOU, in addition to discussing communism, was critical of the World Court, noting that two of its members were communists. He was vociferous in his opposition to the income tax and stated he was in complete agreement with [redacted] of Utah, in his refusal to pay an income tax. He stated he was opposed to the Government of the United States engaging in private enterprise, and thought the Government should divest itself of some 19,000 private enterprises, including TVA. He is against a welfare state and is a staunch advocate of private enterprise.

MENJOU, at the conclusion of his guest stint, urged all those who were opposed to communism to join the John Birch Society and gave DUGGAN and the TV audience the Society's address of Belmont, Massachusetts, as the place to write for information. It should be noted that numerous calls were received by DUGGAN before the conclusion of his show from listeners interested in joining the Society, and the address of the Society was given to the audience on several different occasions prior to the closing of the show at 12 Midnight. MENJOU expressed his admiration for Mr. WELCH, founder of the Society, and explained the Society got its name from a soldier by the name of JOHN BIRCH who was killed by the Chinese Communists following the cessation of hostilities in Korea.

[redacted] Hollywood, Calif., called and stated he would
like to know something about the JOHN BIRCH SOCIETY. He
stated they purport to be anti-Communist.

I courteously informed [redacted] of my inability

He then requested to be advised as to how one could

Dear Sir:

In re: The John Birch Society
Belmont 78, Mass.

Recently I saw Mr. Adolph Menjou on the Tom Duggan television show and he made many statements regarding politics and communism in Hollywood, most of which I agreed with. He is also a strong supporter of Senator Barry Goldwater, whom I also greatly admire. Mr. Menjou said anyone wishing to support the Constitution & help rid our country of Communists, etc., should join the John Birch Society, & gave the address.

The next day Tom Duggan was suspended from his TV program, supposedly because of an anti-Catholic joke his wife had previously told on his program. I noticed in the Times a few days later that the American Legion (composed of 200 members) was calling on the station manager to determine the real reason of his suspension, & then the next day, the paper stated that Tom Duggan had been re-instated & would appear again at his usual time.

I wrote the John Birch Society for literature and am interested in joining. However, my husband says that now days so many patriotic sounding organizations are just Communist fronts and for me not to join anything without checking with you first. So I would certainly appreciate knowing if it is all that it's supposed to be. I think everything possible should be done to awaken people to the Communist threat and I want to help support an organization such as this one, if it is bona fide.

I will certainly appreciate hearing from you as soon as possible. Many thanks in advance.

Sincerely,

I wish to ask for your assistance in the matter of

I have been approached to join the John Birch Society,

I am told that the co-founder of the above society,

Dear Sir:

I have recently been told
some very striking things by
a very good friend who I
believe is telling me the truth as
she has heard it or as far as
she knows.

I have been very interested
in Communism and how it has
affected our schools & textbooks. I
have expressed an interest in
John Birch Society & said I
would like to join it! I attended
two meetings held by the
American Legion Americanism
Committee of Alameda Post.

I have been told by this friend that she has been told by either members of this group (or those affiliated with it) that I was not to be allowed to attend the next meeting. These people have told her that at the Sept 22 meeting

- ① I asked too many questions of the speaker.
- ② I was too interested ⁱⁿ the people attending this meeting. That they should be aware of people asking so many questions
- ③ That I have been connected with Joe Rovato (a former state man)

and therefore are
unreliable.

4. That these people have
in their possession a letter
saying that I would
never be able to join
John Birch Society because
I am questionable about
my loyalty to America.

I do not know what I can do
to refute these statements
about my loyalty except to
say that I am loyal & do hate
Communism. This friend has
been told that she must not
go to meetings with me or
leave with me. That she
should not come to my house

and if I go to her house she
should refuse to let me in.
She asked me if I could
prove that I was a loyal
American. How do I do this?
I have taken the loyalty oath
in Jr. Women Club. I am
American Chairman in Club and
I do not like things like
this being said about me. I
have been on the Youth Center
Board with Joe Bonstad. I
worked on the Community
Self Study Group with him &
others. I supported him for
the School Board because I

felt that he wanted a
better Curriculum, longer day &
etc. The others running were
happy with just being "well
adjusted." I do feel he is very
liberal in many ways and
sorely agree with him. I
also am a member of the Citizens
Lay Advisory Committee & so is
he. But it is pretty hard to be
on any Committee that he is
not on! I do hope you
can tell me what I can do
to prove that I am a
good American Citizen. It is
pretty hard to clear yourself

from charges such as the
and yet this can be a
terrible thing to have said
about you. I have tried to
bring my children up to love
America and I think they
are some proof of my loyalty.

Sincerely,

Rotary Told Time Short to Foil Reds

The time left for saving ourselves from enslavement by "reversing the seemingly inexorable forces of communism" is much shorter than most Americans think. Robert Welch, head of the anti-Communist John Birch Society, warned Friday.

The Communists' timetable, proceeding on schedule, leaves us only a few more years, he told the Rotary Club at the Statler Hilton.

The first stage of Communist strategy, he said, was the taking over of Eastern Europe; the second, domination of Asia, and the third, an encirclement and conquest of Western Europe and America.

Having accomplished the first two stages, they are now tightening the encirclement noose by determined inroads into Northern Africa, he said.

Welch, a candy manufacturer of Belmont, Mass., founded the John Birch Society in memory of an American missionary in China who greatly aided our military forces in World War II and later was executed by the Chinese Communists.

Gentlemen;

Would it be possible for you to send me any information you might have on the John Birch Society? I understand it is an organization designed to help us become more familiar with Communism and how we may combat this dread force.

My husband and I are interested in finding out more about the Society and if it is legitimate in it's aim. Does it have the sanction of the Bureau? We would be interested in joining the Society if we had the assurance that it was an accepted organization and had the full sanction of the Bureau.

We would appreciate your advice on this and any information you might be able to send us.

C advised following: Recently an acquaintance of hers, [Redacted] invited C to attend a meeting of the JOHN BIRCH SOCIETY which is going to be held at the RENUZI home on Glencannon, LA, on 10/24/60.

She stated she intended to go in order to find out if it was subversive, and if so she would report on meeting to FBI. She stated that in the event it was a subversive group, she wanted her call made a matter of record so that the "FBI would know that she had not attended this meeting because she believed in subversive teachings".

C was assured that her call would be made matter of record.

Gentlemen:

I am [redacted] The following is an excerpt from a letter to the Commander, Air Force Ballistic Missile Division, my commander.

" Due to my strong personal convictions that the Communist Party, USA (CPUSA), has made alarming progress in the past few years, I now feel obliged to take an active part in opposing further progress by that agency.

In order to direct the most efficient use of my energy, I must:

- a. Become a member of an effective counter organization to CPUSA, specifically the [John Birch Society], Boston, Mass.
- b. Make available to me CPUSA literature and/or literature indorsed by CPUSA."

The purpose of this letter is identical: " Identification of Personal Intent".

I have personally stated my intended action to Major Redard, OSI, 18th District, Cheli Air Station, Maywood, California.

In that the FBI will probably note my name on a communist mailing list or other CPUSA target lists I wish to make my position clear.

If in the future I can be of any service to the Bureau I hope you will not hesitate to enlist my unconditioned assistance.

Gentlemen:

I, like thousands of other Americans, am seriously concerned over the seriousness of the Communist conspiracy in our country. So far, all I have accomplished is to realize there is a problem, and -- like so many apathetic Americans -- have gone no further.

Recently I heard about the John Birch Society, organized by Robert Welch of Belmont, Massachusetts. From the material I have read on the society, I believe it to be the kind of dynamic action group needed to effectively fight the conspiracy. I am even planning to organize a chapter in my neighborhood. Inasmuch as I am involved in defense work requiring a security clearance, I would not participate without assurance that the society is not, in any way, subversive or derogatory and that it has a clean bill-of-health from the Federal Bureau of Investigation.

It would be greatly appreciated if you would supply me your evaluation of the John Birch Society.

Dear Mr. Simon:

Enclosed you will find a copy of an address by Eugene Carson Blake. This talk is being used by my Church, (1st Presbyterian of Santa Monica) to discredit the John Birch Society. *see attached*

As you will see, in Paragraphs 2 through 6, he is using statements allegedly made by your office to further his charges.

I am sure that if these quotes are true, the FBI did not intend to have them used in this manner. While I am aware that it is somewhat against the policy of the Bureau to do so, I feel that a clarification of this matter would be most helpful, because these statements, as quoted by Dr. Blake, are bringing great pressure to bear on the John Birch Society members.

THE CHURCHES AND COMMUNISM

Text of an address by
REV. DR. EUGENE CARSON BLAKE,
Stated Clerk
The United Presbyterian Church
in the U.S.A.

Delivered at:
West Adams Presbyterian Church
Los Angeles, California

May 9, 1961

It was Adolf Hitler who perfected first the technique of the "big lie." He proved that falsehood repeated enough could brainwash a whole people, no matter how absurd the falsehood might appear to the rational mind.

Los Angeles Presbytery, along with its churches, is being subjected to the "big lie" technique by the current rash of charges that the churches, particularly protestant churches, and the ministry, particularly protestant ministers, have been widely infiltrated by communism.

① Louis Cassels of United Press International wrote in the "New York World Telegram" and elsewhere on last April 29th: "FBI Director, J. Edgar Hoover, is deeply concerned about the danger that self-appointed 'vigilantes' may, in the name of anti-communism, play into communists' hands."

② "During the past few weeks, Mr. Hoover has sent FBI Chief Inspector William C. Sullivan to deliver speeches in many parts of the nation, warning Americans not to be taken in by charges that their churches are overrun by Reds."

"These allegations have served to create the impression among many Americans that the Protestant denominations in particular have been subjected to alarming infiltration and influence," Mr. Sullivan says.

"But this is a patent falsehood. The truth is that the Communist Party has not achieved any substantial success in exerting domination, control or influence over America's clergymen, or religious institutions on a national scale."

Mr. Cassels continues: "Mr. Sullivan is not making this statement on his own authority. He is speaking with the full approval and personal backing of Mr. Hoover. And the FBI Director has so informed a number of amateur Communists hunters who wrote him protesting Mr. Sullivan's speeches."

③ I know of no stronger or more recent third-party evidence that I can quote to make it perfectly clear that the widespread allegations of communist infiltration of the Protestant ministry, of the leadership of our Church, or of the National Council of Churches is brazen falsehood. If any of you have been worried by these charges, I hope you are convinced. And may I go further and remind you that repeating these slanders and libels or even gossiping about them makes you an accessory to the conspiracy which is attempting to weaken the influence of your pulpits, your churches, and your councils, locally and nationally.

I remind you that we have traced to their sources these lies. I do not intend to list them for you again since nothing pleases these "Apostles of Discord" more than to receive publicity which they cannot get on their own when a churchman names them. Of all the letters I received after my sermon of a few weeks ago in Santa Barbara on this same topic was one from one of these sources of falsehood, complaining that I had left him out of my listing. My reason was that he and his pamphlets were not listed on the single sheet of calumny that formed the basis of my sermon outline, the text of which was "Thou shalt not bear false witness against thy neighbor." He should have made his complaint to the anonymous cowards who printed and circulated the poison sheet to the members of the First Presbyterian Church of Santa Barbara. But we can identify quite easily the original sources of the lies. You can tell your people that the chances are better than ten to one that any church story is false that is dated Tulsa, Oklahoma; Collingswood, New Jersey; Madison, Wisconsin; Cincinnati, Ohio; or Wheaton, Illinois. Most of the alleged facts go back to the McCarthy era or earlier, have been denied and disproved again and again.

④ How is it then that they still trouble us? Partly because the big lie technique does not depend on facts. But partly now because the old lies are being actively circulated by the same people who were McCarthy's stooges a few years ago, but are now reorganized into typical totalitarian cells of disruption under a retired candy manufacturer of the Commonwealth of Massachusetts.

⑤ The illogic of this whole campaign has been again and again illustrated by the man's own words. In effect he says that you can't trust anybody, not the President, nor the State Department, not the Army, not any politicians, certainly not the newspapers, or the preachers, therefore trust me. His argument to trust him is that he has "a nose for communists."

⑥ When his more than usually fantastic charge was publicized that former President Eisenhower was a Communist, most even of his followers realized he had gone too far, but their lack of logic and conscience told them not. "I don't agree that President Eisenhower is a communist, but mostly I still agree." When a totalitarian scoundrel is caught charging falsely that one distinguished patriot is a communist, or communist dupe, the only logical conclusion is not, "he has gone too far," but rather "This proves that he does not in any respect know what he is talking about."

The other reason for the current increase in the circulation and acceptance of these false charges about communist infiltration is the fact that generally speaking the American people are frightened. Things have not been going well in the "cold war." Cuts and losses have taken a good deal of hope and confidence from the American people. This real ground of fear of communist success is a fertile field for planting seeds of distrust. We are all happy to find a scapegoat.

⑦ Let me repeat what I have often said and most deeply believe. Free pulpits and free churches all across this land are the best bulwark against Communism that the nation owns.

⑧ I am not really fearful that our Church will be mortally hurt by the attacks against us. What I do fear is that we will become so busy defending ourselves that we will not make the contribution we should to true Americanism in our several communities and in the nation as a whole. Our Churches in every community should be inspiring the community to support the U.N. as man's best hope for peace and freedom. Our churches in every community should be taking the lead in support of the public schools against those who are trying to disrupt them by making false charges against the best and most conscientious teachers we have. Our churches should be busy preaching the gospel of Jesus Christ, the good news of God that alone will give us the courage to face the real threats to our nation and our culture and civilization.

I come here today to my own Presbytery at your invitation to urge you to get off the defensive and in every church to begin the attack that our nation needs to be protected from those who in their fear of communism would destroy American freedom.

⑨ If these attackers of freedom have infiltrated Presbyterian Sessions, the presbytery has power to go in to the support of courageous preachers who will preach the truth. If these enemies of freedom have infiltrated our membership, sessions have the power and duty to discipline members who slander the Church of Jesus Christ by false charges of communism.

Now it is true that our gospel is not always popular. It is true that some of our members and even our officers may be worried to hear the Christian gospel preached. But I urge you ministers and elders not to be afraid to stand for your faith. Let me suggest what our Biblical faith is - even though I shall have time to set it forth in outline only. You ought to write your own sermons.

1. All Christians, worthy of the name believe in God as revealed in Jesus Christ. If we really believe in the sovereign living God, why should the communist conspiracy or its totalitarian and fascist cousins make us afraid. Let us encourage our people to trust God, speak the truth, and believe in the victory of righteousness that Christ has already won.

2. All Christians worthy of the name know that love rather than hate is the most powerful weapon. Let us remember that Jesus said, "Love your enemies." Let us not be afraid to preach Christ even if some will charge you with being weak or stupid. What hope has the Christian pulpit of being respected if the preacher is afraid to preach Biblical truth. What else are you preachers paid your salaries for? Will you let your pulpits become soft echoes of the worst prejudices of your people?

3. All Christians worthy of the name know that the Christian faith is not simply an American faith, but one which is world-wide. Stand up for the United Nations. Make clear why you hate communist ideology, but don't hate the Russian people, or even the Soviet government. Tell your people why from Christian grounds we ought to help the poor nations out of our abundance. Remind them

-4-

that the Christian faith is concerned about all men, Russians, Latin Americans, Negroes, Mexicans, as well as stupid and decadent white Protestants. Don't pull your punches. Some will get into trouble - for sure - so did Jesus Christ. Don't let the doctors make you afraid to challenge them to provide better medical care for old people. Don't let your realtors keep you silent about housing or about open covenants of occupancy for all races. Do you think we dare let the communists be the only friends of the poor and the hungry and the disinherited?

Surely be persuasive if you can. But don't expect that the gospel will ever win a popularity contest.

In addition to these general Christian truths that we are obligated to preach, let us remember our Presbyterian heritage and stand up for it as well.

We Presbyterians believe that constitutional representative government is the right way for free men to govern themselves under God in both Church and State. Don't let anybody get away with challenging that heritage in the Presbyterian Church.

We Presbyterians believe that our religion, both individual and corporate, ought to bear upon the whole realm of human life. Don't let anybody silence you or make you afraid to apply the gospel to economics, politics, social ethics, or anything else that is controversial.

We Presbyterians believe in a sovereign God, strong enough to accomplish His will in the face of Satan and all his cohorts. Let's begin to behave as if we did believe it. Surely we are not promised that such a course will be easy or pleasant, or successful. We don't know about what God's will may be for us. But we do know that if we are faithless in our times of trial, there is no hope but that God himself must repudiate us as faithless servants.

Let's move in to the battle. Let us so behave that the world may note what we say and do and perhaps be drawn to Jesus Christ, because they see that we are His.

Re mylet 8-3-60 in which is set forth descriptive data concerning [REDACTED] correspondent at Paris, France, and editor at Los Angeles of the newsletter "H. DU B. REPORTS."

[REDACTED] has made available a copy of instant five-page newsletter, current issue, November-December, 1960. [REDACTED] also advised that she travelled recently to New York and environs with purpose in large part to solicit more ample stipend for [REDACTED] whose livelihood, she stated, would hardly be maintained but for the cash contribution substantially made by GEORGE WELCH, the Belmont, Massachusetts, candy manufacturer, who is founder-director of the John Birch Society. [REDACTED] also indicated that she has in the past approached WELCH with the thought that he undertake the complete operation of the "H. DU B. REPORTS" but that Mr. WELCH has demurred and indicated that she is best qualified to continue the letter's operation and circulation. [REDACTED] has stated the latter at somewhat short of 1,000.

[REDACTED] advised additionally that she proposed to Mr. WELCH on one of his recent trips on behalf of John Birch Society in the Los Angeles area that the generally mature age and general stamp of John Birch membership suggests that these persons have lost the faculty of serious study and that the aims and goals of the John Birch Society call for necessary serious and even strenuous study on the part of its membership to truly apprise themselves of the nature of the world Communist movement and the necessarily intelligent and studied means of thwarting Communist advance. [REDACTED] indicated that she was able and willing, in her own sight and qualified in the sight of others, to help WELCH set up a serious and useful study program for the John Birch Society membership.

For your information, [REDACTED]

[REDACTED] Encino, California, contacted the Los Angeles Division on January 4, 1961, requesting information whether the JOHN BIRCH SOCIETY was a subversive organization and advising that he desired to know whether the FBI had cleared this organization. When informed that the FBI was unable to furnish any information concerning the organization, because of the confidential nature of the Bureau's records, he became a little upset and stated that he thought it was a terrible position to take and said that he intended writing to the Attorney General about the matter.

COMMUNISM FOES—Robert Morris, president of University of Dallas and leading foe of communism, left, talks with Doane M. Lowery, member of La Canada John Birch Society chapter, at meeting of 700 members of society at Huntington-Sheraton. Times photo

Leaders Fail to Spot Reds, Society Told

Policy planners are responsible for the "deterioration that has beset the free world," Robert Morris, president of the University of Dallas and leading foe of communism, declared Thursday night.

Morris, for five years chief counsel of the Senate internal securities subcommittee, addressed more than 700 members of the John Birch Society, national patriotic organization, at the Huntington-Sheraton. He said free world leaders have failed to recognize "the Communist texture of our enemies."

"We have repeatedly fashioned and established in power people whom we should have recognized as foresworn enemies. Instead of working against them, we exalted them."

Cite Cuba Mistake

"We did this in China, where we brought the 'agrarian reformers' into power. We did the same in Cuba, where we aided Castro to power and then bolstered him after he took over."

He said that "by the same foolishness" we have aided pro-Communist leaders in Africa, birthplace of many freedom seeking nations.

Morris was introduced by Doane M. Lowery, member of the La Canada John Birch Society chapter. The society is dedicated to the task of educating Americans to the menace of Communist conspiracy.

Gentlemen

You are undoubtedly the recipient of hundreds of letters very similar to this one each week. I might add that I am not a habitual letter writer. I have a problem however and when one has a problem he has to have an answer. It is to this end that I am taking the time to write your office. I am hoping that you will supply me with the information or facts I need.

Saturday evening I was invited to attend the showing of a motion picture entitled "The Rise of the Communist Party" or something similar to that. The invitation came to me through a co-worker. My wife & I arrived late and only saw the last half of a film strip-record. This was followed by a coffee break and a question and answer period.

100-59001-79

It was during this question and answer period that I learned that there was an organization called "The John Birch Society" that was sponsoring the film.

Desert Inn Motel

They had a lot of printed material tracts, brochures & publication that were distributed freely and we, as a group, were encouraged to read these and to ask questions concerning the "society" and to come back next week.

now I suppose that I am as suspicious as the next guy on something like this but they said a lot of things that made sense and backed it up with "documentary proof" so they say. No pressure to join the society was use but they presented their position in such away that your patriotic spirit was aroused and my mind was moved to a "state of action". Enough so to write this letter anyway.

now then, the problem I mentioned earlier - Can you as a government agency provide me with any information pertaining to the society or the printers of their literature as to whether or not they are connected with the communist party in any way, past or present. Or are they consider subversive in any way

I might add that I consider myself a good citizen. I am married, active in church work, a member of the U. S. Air Force Reserve and a full time employee of the General Telephone Directory Company.

I bring my problem to you gentlemen because I know of no other place to take it

If I may be of any assistance ^{to} you I can't reach ~~me~~ at my home on weekends or here in San Bernardino during the week.

I am most anxiously looking forward to hearing from you considering this matter

Honorable Francis E. Walters,
Committee on Un-American Activities,
U. S. House Office Building,
Washington, 25, D.C.

Dear Sir and Committee:

b6
b7C

I am a Sixth Grade teacher in the Los Angeles City Schools. We live in Glendale and our daughter attends Immaculate Heart High School in Hollywood. Our son attends the University of Oregon and is in his second year of Pre-law. My husband is an engineer at Lockheed Aircraft Corporation. This is some of our background.

We have always tried to school our children to search for truth and have used the House Un-American Activities reports as authority for all debate on matters pertaining to foreign infiltration of our United States of America.

Our daughter, [redacted] needed material for her debate (She is on the Immaculate Heart debate team.) on the HU and especially on the Alger Hiss trial and his connection with the United Nations. We naturally went to the local Glendale library. We could find no evidence of HUAC reports there, only State Committee reports for California. So, I asked the Research Librarian why there were no HUAC reports for high school and college students to use for research. It caused quite a consternation around the library. Since there are two high schools, of which a high percentage of students attend college away and at Glendale Junior College, I felt taking a stand on this matter was imperative.

So, sir, I am requesting, is it is at all possible, that at the discretion of your committee, could we have for the Glendale Library a full set of reports? Thus, our children may have the truth about communist infiltration to use in debate and in their school papers. Whether they are sent to me or directly to the Glendale Public Library, 319 East Harvard St., Glendale, we hope that they will be available. Should you send them to me, they would be presented to the Library by [redacted] an attorney and an active Legionnaire, who will make sure that they are a part of the research stacks library.

Thank you very much for considering this letter. May the Lord bless your fine work in keeping the nation alert to the ever-present dangers that bore from within. Your courage and willingness to fight evil at its very root is keeping our country strong. Thank you, gentlemen, for the hours of devotion you give above and beyond your regular Congressional duties.

Sincerely yours,

Glenn E. Walters

News-Press Staff Writer

The John Birch Society, whose self-appointed leader called President Eisenhower "a dedicated, conscious agent of the Communist conspiracy," was formed in Indianapolis Dec. 9, 1958. It began its semi-secret existence in Santa Barbara about a year ago.

What is this organization, which has become established in many parts of the country, and whose members, among other things, are urged to "take over the PTAs"? In

A NEWS-PRESS SPECIAL REPORT

Santa Barbara, questions about it are being asked with mounting frequency. Literature about the society is being circulated. Rumors are flying.

STUDY GROUPS

Locally, the society is reported to have several chapters with the membership running into "the hundreds." The chapters meet once a month in private homes as study groups. Members hear tape recordings, view motion pictures, discuss aspects of the "Communist conspiracy," listen to book reviews, discuss tactics, and in general make themselves better equipped, so they believe, to meet what they term the challenge of Communism.

That meeting in Indianapolis was called by Robert Welch of Belmont, Mass., a retired candy manufacturer, who in January, 1957, left the business world, he said, to devote his time, money and energy to the anti-Communist cause.

He told the 11th ~~present~~ that the society, which would function almost entirely through small local chapters, usually of from "10 to 20 dedicated patriots," would promote "less government, more responsibility and a better world."

'THE POLITICIAN'

The statement that Welch considers Eisenhower an agent of the Communist party is contained in a 302-page manuscript called "The Politician." Originally written as a letter in 1954 and added to from time to time, it was intended "as a confidential document outlining Welch's opinions regarding the progress of Communism, particularly in the United States.

Welch told the Boston Herald that he "added to it ever

time I got requests for it." He said: "By 1956 it had grown to 6,000 words. By 1958 it was up to 80,000. At that point I decided to reproduce it by offset."

Copies of the book were distributed to some of the top leaders of the John Birch Society, but Welch said that he is trying to withdraw each copy, and "get it out of circulation as quickly as possible."

MILTON TOO

In "The Politician" Welch said: "While I too think that Milton Eisenhower is a Communist, and has been for 30 years, this opinion is based largely on general circumstances of his conduct. But my firm belief that Dwight Eisenhower is a dedicated, conscious agent of the Communist conspiracy is based on an accumulation of detailed evidence so extensive and so palpable that it seems to me to put this conviction beyond any reasonable doubt." He also said of Eisenhower that "... there is only one word to describe his purposes and actions. That word is treason."

~~"The Politician"~~ also describes former Presidents Roosevelt and Truman as tools of international Communism, along with the Dulles brothers and various other high government officials, including Chief Justice Earl Warren.

Dr. Granville Knight, Santa Barbara physician and a member of the 28-man national council of the society, said in an interview that he has read "The Politician." He said that the book is a confidential document, that it contains Welch's personal opinions, that it was written before the formation of the society, and that it now has been withdrawn.

DON'T AGREE

Asked whether the statement about the President appears in the book, Dr. Knight answered: "I won't say whether it does or not . . . It is unfortunate if it does." Other local society members who also were asked about the book said that they have not read it, and that they do

not agree with Welch that Eisenhower is a Communist.

Attorney General Stanley Mosk said in Santa Barbara recently that "from the nature of this organization, as reported to me and as indicated by the press, I would consider it to be clearly subversive in nature. Certainly, the indication that the President of the United States is a Communist, and the assertion that his purpose and actions are treasonable, would constitute criminal libel under the laws of California. If such an organization is attempting to gain foothold in this state, I would urge prosecution under our criminal libel statutes by local law enforcement agencies."

TAKE OVER

In his Bulletin for September of last year, one of the many publications put out by Welch, he urged the members to "take over" the PTA. "Join your local PTA at the beginning of the school year, get your conservative friends to do likewise, and go to work to take it over," he said.

"You will run into reapat- ties against determiner- ists who have had eye the their way. But it is be- we went on the offensive

such groups the instruments of conservative purposes, with the same vigor and determination that the 'liberals' have used the opposite aims. When you and your friends get the local PTA group straightened out, move up the ladder as soon as you can to exert a wider influence. And don't let the dirty tactics of the opposition get you down," he said.

Believing that the war between Communism and the free world is being fought on the political and educational level and alleging that "democracy is merely a deceptive phrase, a weapon of demagoguery and a perennial fraud," Welch, in his Blue Book, has outlined areas of endeavor for society members.

READING ROOMS

He urges the establishment of reading rooms which also can serve as rental libraries. He suggests that the circulation of various publications be expanded, that members embark upon letter-writing campaigns, that they organize fronts assigned to certain purposes, that they start "shocking the American people," and that they obtain and feature "appropriate" speakers.

Sumner's Report

Introducing the John Birch Group

By BILL SUMNER

We have in our midst a growing, increasing active group of ultra conservatives doing business as the John Birch Society. More than likely this is the first time that many of you will have heard of it. It is not a secret organization, but it has avoided publicity while gaining strength.

It is a national organization dedicated to the destruction of communism in this country and a rebuilding of this nation in the conservative image. It seeks to educate the public, as with some local sponsorship of documentary films and aims at local political influence.

Until recently, the members of its cells have sought to influence with letter writing campaigns, such as that demanding the impeachment of Chief Justice Earl Warren, but now has a record of influence in at least one school board campaign, that of La Canada, and has as a target the defeat of so-called left-wing elements in the PTA.

It is a dedicated, disciplined group which probably numbers in the hundreds in this area. The objective in the United States is a membership of a million.

★ ★ ★

THE SOCIETY was founded in Indianapolis on Dec. 9, 1958, by Robert Welch, 71, formerly the head of the candy company which bears his name. It was named for a John Birch, a captain in the U.S. Army who, it is said, was murdered by Chinese Communists 10 days after VJ Day.

Welch is a well-educated man. He is a native of North Carolina and graduated from the university there. He attended Annapolis for two years, Harvard Law School for two more, and has lived in Boston since 1940.

of demagoguery, and a perennial fraud.

★ ★ ★

LOCALLY, recruiting efforts are staged in homes and consist mainly of a four-hour movie in which Welch explains the aims and methods of his group. Welch is the sole occupant of the screen, and it is understood that this is merely a segment of a 12-hour-long movie, also of Welch.

After explaining the origins of the Society, he goes on to say that there must be complete obedience within the group. He states that Communists would infiltrate with any other process and make their work easier.

He explains that the Society is organized on a cell theory of operations. Each cell director attends monthly meetings to get directions from a district director and then reports back to his own group.

★ ★ ★

A DIRECTOR is responsible for his group's cooperation. Anyone who does not cooperate faces immediate expulsion.

Assignments also come in the monthly John Birch Bulletin, edited by Welch.

What is not discussed at this preliminary meeting is a booklet written by Welch, called "The Politician," which identifies former President Eisenhower, Chief Justice Earl Warren, and others of the Eisenhower administration as Communists.

We'll go further into this one on Monday.

Sumner's Report

Ike a Red, John Birch Leader Says

By BILL SUMNER

It is difficult to quarrel with the stated aim of the John Birch Society.

"Our dedicated purpose," states one of its manifestos, "is to alert persons of good character—regardless of race, color or creed—to the dangers of Communism, and to point out by means of films, tapes, books and pamphlets, documentary evidence of Socialist and/or Communist advances within this country."

Some of the many hundreds of well-meaning people who have been attracted to the Society in this area might be interested in just how far the founder and boss of this organization feels the Communist conspiracy has gone.

Robert Welch, 71, the founder of the John Birch Society, stated flatly in a booklet he had printed in 1958, that President Eisenhower is a Communist.

He wrote, in "The Politician":

"While I too think that Milton Eisenhower is a Communist, and has been for 30 years, this opinion is based largely on general circumstances of his conduct. But my firm belief that Dwight Eisenhower is a dedicated, conscious agent of the Communist conspiracy is based on an accumulation of detailed evidence so extensive and so palpable that it seems to me to put this conviction beyond any reasonable doubt."

COPIES OF this book were given to the leaders of the movement but efforts are being made now to withdraw it from circulation.

Evidently there is disagreement in the organization on the infallibility of Founder Welch in at least this one instance.

Dr. Granville Knight, Santa Barbara physician, and a member of the national Council of the John Birch Society, described it as a confidential document containing Welch's personal opinions.

Welch is the man, at any rate, who directs the team in such activities as letter writing, school book censorship and political action. He is the man who has urged his members to take over the PTAs to "make such

groups the instrument of conservative purposes, with the same vigor and determination that the liberals have used the opposite aims."

★ ★ ★

AND HE has the backing of a group of considerable importance in this country, members of his Council, which includes Dean Clarence Manion, T. Coleman Andrews, Adolph Menjou and Spruille Braden.

Locally, and in this area, the Society seems to be attracting men and women of some substance. It would not pay to dismiss them as a group of fanatics and crackpots worthy only of a passing snort.

Two candidates in the recent La Canada school board election, for example, one of them successful, feel that the Society had some influence in that election. How much, it would be difficult to say, but both candidates seemed to regard the Society as faintly menacing and potentially dangerous.

★ ★ ★

MENACE? A danger? I think at the moment that may be reaching. But there is a feeling of some discomfort. I have the feeling that here is a group of dedicated men and women, with some potential for power, who do not believe in the democratic form of government.

I may be wrong in this conclusion, but there is nothing to suggest that I am. This, I guess, is the season for understatement.

A View of the News

George Todt's Opinion

"The first great break for the Communist conspiracy came in 1938, with our formal recognition of Stalin's regime." — ROBERT WELCH, Look at the Score.

Do more than 100 American patriotic societies possess the right to press for the impeachment of the Chief Justice of the United States by Congress in these modern times?

Todt

Many members of the press consider this such a ticklish question that they would prefer to see it swept under the rug.

Frankly, I think the question deserves to be aired. Why not put the cards on the table for everybody to see? Who is afraid of the truth? Let the chips fall where they may!

What are the facts in this case?

They are, quite simply, that the John Birch Society — a rapidly mushrooming anti-Communist organization in the United States — has requested a large number of American patriotic societies to join with it in whipping up popular support in Congress to impeach Earl Warren, Chief Justice of the Supreme Court.

There seems to be a lot of grass roots sympathy for this action and the movement is apparently growing by leaps and bounds.

Questions Wisdom...

I do not believe that there has been any false inference that Mr. Warren is a Communist, which he most certainly is not! The John Birch Society merely claims that he has performed his official duties poorly and in such manner as to bring

considerably less than terror to the hearts of the Reds. It questions the wisdom of certain key decisions.

According to Robert Welch, founder of the society, one of these was Brown versus Brown because it overturned numerous previous decisions by the same court on nothing more substantial than "a set of psychological and sociological theories advanced by a Swedish Socialist named Gunnar Myrdal and a group of American Communist-fronters with whom Myrdal had been associated."

Here are three more decisions which have particularly incensed Welch and his supporters, as seen through his eyes:

"In the Steve Nelson case the Warren Court wiped out the anti-sedition laws of more than 40 states, and denied those states the right to protect themselves against treason, on the ground that the federal government had pre-empted the sedition field by passing the Smith Act (which Act this same Supreme Court has done everything it could to vitiate).

Of His Acts!

"In the Konigsberg case the Warren Court canceled the right of any state to deny a license to practice law to a man merely because he would not say whether he was a Communist or not.

"In the Sweezy case the Warren Court reversed the New Hampshire Supreme Court and held that the

attorney general of New Hampshire was without authority to question a lecturer at the state university — supported by the taxpayers of New Hampshire — concerning reported subversive activities.

"There have been dozens more which we cannot even mention here."

Welch bases his argument for impeachment on Article III, Section 1 of the Constitution, which provides that federal judges "shall hold their Offices during good Behaviour."

Here Are Some...

Since the Constitution specifies no other arrangement for limiting the tenure of federal judges to the periods of their "good behaviour," Welch believes it is to be considered obvious that impeachment is to be used for those who violate this requirement.

Now it appears that there is a considerable body of American citizens who express themselves as dissatisfied with the behaviour of Mr. Warren as Chief Justice of the United States.

They want Congress to bring impeachment proceedings against him.

I am not arguing the

merits of this case, pro or con.

But the question has been raised as to whether these people are within their legal rights to take this kind of action.

Actually, it seems to this writer that no office-holder in this democratic Republic of ours ought to be beyond the reach of the people should they become dissatisfied with his public actions.

Undeniable Facts!

I say this impartially with reference to any position and regardless of the political party, race, creed or color of the person holding it.

Those in public life who arouse the wrath of the people must expect to settle their account with the people thereafter.

Impeachment by Congress under special circumstances is a legitimate kind of accounting in the Republic of the United States.

I am not a member of the John Birch Society, although I know fellow citizens who are enrolled in the organization.

From all outward appearances I have been impressed with their dedication to anti-Communism and constitutional Americanism.

I cannot see where they have overstepped their rights here.

Biased 'Opinion' at Library-- Few Facts

Editor, News-Press: Two of your letter writers (Loren R. Ellwein and Ann Gilbert, News-Press, Jan. 28 and Feb. 1) objected to your reporter's distorted presentation of the aims and objectives of the John Birch Society, and recommended that all interested individuals obtain the "facts" at the American Opinion Library, 132 E. Canon Perdido.

As an interested individual, I followed their suggestion, and went to the library. I admit that I had preconceptions about what I would find . . . and they were verified.

I didn't find a library; at best, not in any meaningful sense of the term. After being met by a charming and courteous middle-aged woman, I was led into the "library," which impressed me as being rather sparsely stocked. I inquired of the lady if what lay before me was the entire library and she assured me it was. The library consisted of one shelf of books and numerous shelves of pamphlets. The shelf of books contained (as I expected) "The Naked Communist," by Skousen; "The Cry Is Peace," by Lou Budenz (the professional witness); "Masters of Deceit," by I. Edgar Hoover, and

comes by Whittaker Chambers, Schwarz, Philbrick, Strube, Dies, etc. I would say, though, I didn't count them, that there were about 15 volumes in all. Now, if one were to read only the above-mentioned books, one would get the impression that one's wife was a Communist. But the American Opinion Library does not want you to go away with only one side of the story; the pamphlets in the library tell the other side. Most of the pamphlets were for sale and I bought the \$2.00 John Birch Society "Blue Book," in a plain cover. However, I received some literature free which was all prepared by the Christian Anti-Communist Crusade (headquarters in Houston, Tex.), and written by some of the fellows who wrote the books referred to above. Coincidentally, two of the fellows who wrote the pamphlets, and two of the books, are officers of the Christian Anti-Communism Crusade. A reprint of testimony before the HUAC turned out to be Mr. Schwartz's testimony. Mr. Schwarz wrote one of the books, one of the pamphlets and is an officer of you know what organization.

The point I am making here is that the American Opinion Library has offered me more opinion than fact (and biased opinion, at that). Your readers who contend that Americans are getting only one side of the story on Communism should get together and ac-

quire more books for the American Opinion Library, possibly, a few that hold opinions adverse to their own.

Our Readers' Views

Significance Seen In Attitude of FBI

Editor, News-Press: I've managed to live through two wars and numerous other national and international crises without ever feeling constrained to sound off publicly. However, I've become increasingly concerned of late about the serious problem of Communist subversion in this country, and I suddenly feel an overpowering urge to stand up and be counted—at least on two issues that have been generating considerable steam in this area recently. I refer

to (1) The activities and aims of the John Birch Society, (2) The rioting at the House Un-American Activities Committee hearings in San Francisco last May.

Now inasmuch as each of these issues involves charges of subversion, it seemed reasonable to me to seek the truth from America's foremost authority on subversive activities, the Federal Bureau of Investigation. Accordingly, I sent a letter to the FBI requesting the facts.

A few days ago I received a personal letter from J. Edgar Hoover which states in part, "The jurisdiction and

~~responsibilities of the FBI do~~ not extend to furnishing evaluations or comments concerning the character or integrity of any individual, publication or organization. I can advise you, however, that the John Birch Society has not been investigated by this Bureau."

In reading the "Blue Book" of the John Birch Society, I find that it was organized on Dec. 9, 1958. Now, if this "Fascist" group—as our beloved "liberals" of the community are wont to describe the movement—has been functioning on a national basis for over two years, and the FBI, this nation's watchdog, has not considered it necessary to investigate its activities, I suggest it's reasonable to assume that Mr. Hoover does not regard this organization as being in any way subversive—regardless of what California's attorney general or any other politically motivated person might state.

If Mr. Welch, the society's founder, was correctly quoted as accusing ex-President Eisenhower of having Communist affiliations then I disagree with him. However, I do not believe that an organization that is apparently doing an effective job—judging by the anguished screams of the "liberals"—should be de-

~~nounced and ridiculed out of~~ existence because of one or two mistakes on the part of its founder. I personally believe, based on what I've read and heard, that the society is no more than it purports to be—a weapon to combat subversion.

Now, as to the San Francisco affair. Along with the letter from Mr. Hoover I received a pamphlet written by him entitled: "Communist Target—Youth." This report states that the so-called "spontaneous" demonstrations against the HUAC hearings were in fact organized and controlled by the Communists from beginning to end. This document, complete with names and pictures of the agitators, makes fascinating reading. I urge all News-Press readers who are interested in the facts of this nefarious business to write to the FBI for a copy.

The John Birch Society

The John Birch Society with its National Headquarters at Belmont 78, Massachusetts, was founded in Indianapolis, Indiana on December 9, 1958. It is a membership-type organization with various local chapters throughout the United States and a central Home Chapter located at the National Headquarters. The purpose of the John Birch Society is to promote less government, more responsibility and a better world.

NAME

The name for the John Birch Society was taken from Captain JOHN BIRCH. Captain BIRCH was a young Christian missionary in China, who was from a farm near Macon, Georgia. Captain BIRCH was in China when the United States entered World War II. He joined CHENNAULT's forces as a volunteer and later rose to the rank of Captain in the United States Army. Ten days after VJ Day, while still in uniform and on an official mission for the United States Government, he was reportedly murdered by the Chinese Communists.

FOUNDER

The John Birch Society was founded by ROBERT WELCH. WELCH was born December 1, 1899 in Chowan County, North Carolina. He attended the University of North Carolina for four years, the U. S. Naval Academy for two years and Harvard Law School for two years. WELCH went to Boston, Massachusetts from North Carolina in 1919. WELCH has written several books such as "The Road to Salesmanship"; "May God Forgive Us", and "The Life of John Birch". He is the editor and publisher of "American Opinion" a monthly magazine which reviews current events and appraises contemporary leaders on a world-wide basis.

WELCH, until recently retiring, was in the candy manufacturing business. He was for many years Vice-President in Charge of Sales and Advertising of the James O. Welch Company. He has been a member of the

Board of Directors of the National Association of Manufacturers for seven years and has also served for three years as a Regional Vice-President of the National Association of Manufacturers. As of January 1, 1957 WELCH gave up most of his business responsibilities in order to devote most of his time and energy to fighting Communism.

PURPOSE

The John Birch Society has set forth as its purpose an organization of Americans who have voluntarily joined together to:

1. Combat more effectively the evil forces which threaten our country, our lives and our civilization;
2. To prevail upon our fellow citizens to start pulling out the deepening morass of collectivism, and
3. To restore the spiritual sense of value and the humane traditions on which our Western civilization has been built.

ORGANIZATION

The John Birch Society functions almost entirely through small local chapters. These chapters are usually made up of from ten to twenty individuals. Each chapter has a chapter leader who has been appointed by the Headquarters of the organization in Belmont, Massachusetts. There is one Home Chapter which is located at the National Headquarters.

Dues are paid and while a member may pay any amount that he desires, minimum amount of dues in a regular local chapter for men is \$24.00 per year and for women \$12.00 per year. Dues in a local chapter may be paid at the rate of \$2.00 per month for men and \$1.00 per month for women. Dues for the Home Chapter must be paid annually in lump sum, and are \$24.00 for men and \$12.00 for women

The John Birch Society

and \$1,000.00 for a life membership in the Home Chapter which may be paid in two consecutive annual installments of \$500.00 each. It is necessary to fill out an application to join The John Birch Society and the application states:

"This is my application for membership in the Chapter of The John Birch Society, for one year from this date, and for automatic renewal each year thereafter, unless I resign in writing. I understand the dues schedule printed on the back of this sheet, as applicable to myself.

"If my application is accepted, I agree that my membership may be revoked at anytime, by a duly appointed officer of the Society, without the reason being stated, on refund of the pro rata part of my dues paid in advance."

Local Chapters have been instructed by the National Headquarters to hold meetings at least once a month and to keep strict and careful control on what each chapter is doing. The National Headquarters of The John Birch Society had set a goal for 1959 the raising of \$1,000,000.00 of outside funds to carry on the work of the society. They also set as a goal 30,000 dedicated members for the year of 1959.

COUNCIL

The John Birch Society has as its top organizational structure : a Council. The basic function of the Council is threefold:

1. To show the stature of standing of the leadership of the society;
2. To give to the founder the benefit of the Council's advice and guidance, and
3. To select with absolute and final authority a successor to WELCH as head of The John Birch Society.

The John Birch Society

To Whom This May Concern:

I am frankly interested in what type of organization the John Birch Society is or plans to be????

From the little I have heard about it and from just two articles (copies) I have personally read--I am more than curious.

Is there anything wrong with this organization? I am not thinking of joining but do know a few who seem to be more than just a little interested and it sounds like a rather poor excuse of something or other.

Could you send me any information you might have?

Thank you.

Gentlemen;

In J. Edgar Hoover's book "Masters of Deceit";
and in a leaflet "What You can do to fight COMMUNISM";
"Patriotism is everybody's job"- We are told of
some of the things that we can do to help.

Result: I joined the John Birch Society to help
spread the word of the perils on every hand; RESULT
I have been told that this organization is on your
lists as a subversive. I have also been given some
quotes ~~presumably from the~~ Society's publications that
were supposed to appear in the Star News (Pasadena)
as follows: Messrs. EISENHOWER, NIXON, AND GOLDWATER
were attacked by the John Birch Society. I find no
such accusations in the publications that I have.

SO WILL YOU PLEASE LET US KNOW IN THE PAPER OR
IN ANY OTHER MANNER THAT IS POSSIBLE IF THERE IS
ANY TRUTH IN THIS. WE ARE CONSTANTLY KEPT IN A
STATE OF DOUBT, AS TO WHETHER WE SHOULD KEEP ON
TRYING OR JUST GIVE UP ON THE JOB. WE JUST DO NOT
KNOW WHO TO TRUST. The problem seems to be one of
continually asking IS THIS RED OR RED, WHITE AND BLUE?

If there is a way to judge the legitimate anti-
communist organizations or whether we are dupes,
we would appreciate an answer.

The John Birch Society—subject of considerable controversy during recent months — is coming to Ventura County.

Its arrival was heralded last night at a showing of the equality-controversial film, "Operation Abolition," before an overflow crowd at the Church of the Nazarene.

The arrival time and place were not disclosed by spokesmen John Davies and Don MacLeod, both Santa Barbara County residents and members of the John Birch Society there.

"We don't want publicity," Davies said in reply to a question on organization plans here. "We don't want to be turned into a debating society; we don't want to be infiltrated."

The society lists as its goals "less government and more responsibility." It favors retention of the House Un-American Activities Committee, and is "against socialism." It favors abolition of the federal income tax, "but that is way down on our list," MacLeod replied in answer to a question on the goals of the organization.

The meeting last night was led by M. Manly Lewis, 710 Mercer St., Ojai, a teacher of American government for the past 11 years at Ventura High School. "Operation Abolition" has been attacked as one-sided and distorted by its critics, and defended as forthright and documentary by its proponents. It deals with the riots last Spring

that accompanied the hearings of the House Un-American Activities Committee in San Francisco and was produced by Capitol Films, Washington, D.C., with the assistance of the Un-American Activities Committee.

The John Birch Society has been the subject of newspaper (See CONTROVERSIAL, A-3).

Goal Set At Million

The John Birch Society, according to a bulletin issued by it a year ago, is governed by a council, and among the members of that council is Dr. Granville M. Knight of Santa Barbara. At that time, Santa Barbara's chapter had a library of materials available to the public. The bulletin notes that the society, founded by retired candy-maker Robert Welch of Belmont, Mass., has as its goal 1 million members.

"Neither the list of our members, of either local chapters or the Home Chapter, nor their number, is ever given out to anybody," the bulletin says.

Another document from the society says this privacy for members "is to protect those who do not wish to be disturbed by nuisance tactics." Membership, it points out, is by invitation only.

It takes its name from John Birch, an American Christian missionary, whom the society claims was killed "in cold blood by our 'allies,' the Chinese Communists . . . on Aug. 25, 1945. He thus became probably the first American casualty in that third World War, between the Communists and the ever-shrinking 'free world,' which is still being waged against us 15 years later; a relentless war of which there is no end in sight."

reports in Santa Barbara and Los Angeles, and has been termed by some as a potent new force in the battle against Communist ideology in the United States, and branded by others as a neo-fascist group seeking a return of McCarthyism in the nation.

Davies said the group hopes to work through "aroused public opinion that will awaken your local congressman to the real menace of communism. "Our nation is going socialist and collectivist," he warned.

Asked whether Lewis would be forming the group in Ventura County, MacLeod said he assumed he would; Davies said he wouldn't.

Lewis warned in a preface to the film that "It is time to get busy. Our American heritage is faced with a relentless enemy." He said "None of us has any idea of going on a witch-hunt."

no one need accuse his neighbor of being a Communist or a Communist sympathizer; we don't have to suspect any neighbors."

Davies, who introduced the film, pointed out that it was obtained through Rep. Charles M. Teague, R-Calif. He said "Operation Abolition" had done "more to start anti-Communism to action than anything that's come along." Noting that "there has been some criticism of the film, mainly with editing, that should not alter the fact of what you see. True," he continued, "the sound track is not always synchronized with what you see."

QUESTIONS REPORT

Told that the National Council of Churches had warned its members not to show "Operation Abolition" without first arranging for "the other side" to be presented, Davies answered: "Find out who inspired that be-

port from the National Council of Churches."

After the much-discussed film was shown, Davies answered questions together with Lewis. Among comments from the audience of about 200:

JOHN V. NEWMAN, Santa Ana Valley rancher and president of the California Council of Growers (a ranchers' organization)—"I've been to Russia, and I'm in favor of sending as many of our students there as we can, to let them see it for themselves. They'd see that what we have here is far better than what they have there."

JOHN A. DRON, SR., Ojai Valley civic leader and retired U.S. Army major—"I never expected to see a church of God dedicated to the Gospel of Jesus Christ used for Americans to hear false witness, in a motion picture sponsored by a society whose president declared that

our former President, Dwight Eisenhower, is a dedicated Communist agent, that Chief Justice Earl Warren should be impeached for disloyalty. Consider and bear in mind that this man said too that 'Our democracy is a sham and a delusion.'"

MICHAEL KROLL, Ojai Valley student—"Has the House Un-American Activities Committee ever investigated the Ku Klux Klan?"

MRS. MARY MUNSELL, dean of girls at Ventura High School—"If we want to criticize a government agency, would it not be better to write our congressmen, rather than incite others to riot?"

CHARLES GASSAWAY, Rice Road, Ojai, retired U.S. Navy officer—"Communism will in-

filtrate wherever it can. We have got to be on guard against it."

Lewis invited members of the audience to write Rep. Teague for more information on the House Un-American Activities Committee. He said he had done so and had received a considerable amount of literature on its record and proceedings.

More than anything else, he urged "action now. We don't have time to quibble."

He ended the meeting by asking twice whether the group wanted more programs on the subject of anti-communism. He was answered by a round of applause.

LOS ANGELES — Suburban newspaper columnists have been devoting uneasy attention recently to an organization known as the John Birch Society, apparently a well-heeled outfit spawned by the Cold War.

The society's founder is Robert Welch, 71, a retired Boston, Mass., candy manufacturer, who set up the organization Dec. 9, 1958, at Indianapolis, Ind. Neither the date or place seem to be of significance but the society's "cell" method of organizing and the role of its founder seems to have aroused misgivings.

Welch, who is described as the absolute boss of the society, was born in North Carolina, finished the university there, spent two years at Annapolis and another two at Harvard. He's lived in Boston since 1919.

"Democracy is merely a deceptive phrase," Welch proclaimed on one occasion, "a weapon of demagoguery, and a perennial fraud."

AMID WEALTHY

Welch seems to have taken fright at some of the liberal decisions of the U. S. Supreme Court and his "cells" were commanded to wield pens in a letter writing campaign calling for the impeachment of Chief Justice Earl Warren.

Welch also tackled the Eisenhower menace to free enterprise. He thinks Milton Eisenhower, brother of the former president, was a Communist, and it is "his firm belief that Dwight Eisenhower is a dedicated, conscious agent of the Communist conspiracy."

That appeared in a 1958 booklet, "The Politician," written by Welch, which seems to have been withdrawn from circulation after being seen by a few leaders of the movement.

Said Bill Sumner, in The Pasadena Independent:

"Locally, and in this area, the Society seems to be attracting men and women of some substance. It would not pay to dismiss them as a group of fanatics and crackpots worthy only of a passing snort."

Besides Pasadena, the society has picked up recruits in Santa Barbara. Significantly, both communities are dominat-

TIGHTER GRIP

As new political assassinations by Belgian puppets were reported in the Congo, as demonstrations continued around the globe against the murder of Premier Patrice Lumumba, one grim fact was unchanged — the Belgians showed no intention of relaxing their imperialist hold on the Congo's wealth.

Letters to the Editor

The Readers' Forum

John Birch Society

I would like to express my appreciation for the columns concerning the John Birch Society.

A number of people in our congregation have been concerned about this group and have had serious questions regarding it; and your publication of this information has been most helpful in providing a real understanding of the true motivations behind this organization.

FRANK S. HAMILTON, Jr.
South Pasadena

★

May I compliment you on your columns about the John Birch group? Perhaps well-meaning (and perhaps not) organizations like this can be brought to the attention of most of us only through newspapers.

I was horrified at seeing that six of the first ten letters to the editor were in favor of the John Birch group. You have done us a service in your reasonable presentation of the means and ends of this organization which, however well-intentioned it may be, is evidently willing to use totalitarian means to fight totalitarianism.

MRS. T. H. JENSEN, Altadena

★

I want you to know how much I enjoy Bill Sumner's column. It is interesting, refreshing, fun and enlightening.

I'm glad he has written about the John Birch Society. I gather that you along with a lot of other people, have heard about it and wondered about its makeup, philosophy and aims—I certainly have. Their professed aim of fighting Communism is admirable, but their blanket, it would seem, condemnation of anyone who disagrees with them certainly gives me pause.

I hope you will write more about them so all can take a closer look.

MRS. PHYLLIS GAYMAN,
South Pasadena

Mr. Bill Sumner's excellent columns on the John Birch Society should awaken temperate members of the community to the means which this group uses to obtain its goals.

Whenever government has moved into what had been the private sphere, the more conservative elements of society have felt oppressed. At times they may even be convinced that a large part of society is conspiring to destroy their economic freedom.

With the spread of Russian imperialism, a new label for advocates of change has become popular: Communism. Anyone who supports social welfare measures or labor unions is suspect. If 60 per cent of the U.S. public seems determined to extend social security benefits, then 60 per cent of the country is Communist. The John Birch Society would have us reach this conclusion.

But here lies a great danger. When Communists are imagined in every Rotary Club and school board, we become so afraid that drastic measures seem justified. Loyal Americans are accused of Communist activity. In doing this we aid true international Communism by dividing our energies against each other.

Sumner's Report

Here's What Made the Pot Boil

By BILL SUMNER

The last few weeks have been educational. We introduced the John Birch Society locally and it was like opening a Pandora's box. I don't think any of us had assessed properly the suspicion and hysteria that had been built up. And it has not, in truth, been one-sided.

I think at this point we are going to have to guess at what started the pot to boiling. To me, as a conservative, the pent-up feelings are quite understandable and need to be understood in the light of our recent history. There is no claim here that what follows is the answer, but it is an honest viewpoint, superior or not.

Frankly, the urgent message of this group has an appeal for the conservative. We do have too much government, and it is growing, and we don't have enough of a feeling of individual responsibility.

We continue to drift into a welfare state. We have had important treason and we haven't seemed to realize that we are not in a game of international patty-cake with Russia. Rightly, I think, we set out to put a war-ruined world back on its feet, but have continued the handout as an extension of foreign policy, seeking to buy friendship we may or may not want or need and finding, to our despair, that it hasn't taken anyway.

The conservative, too, has been leaderless since the death of Senator Taft. Senator Goldwater is an honest conservative with considerably more personal appeal than Taft, but as yet has neither the Taft prestige or influence.

IN MY opinion, too, the Republicans have been leaderless for the past eight years. We'll not deal with Mr. Eisenhower's qualities as a President, but no one ever accused him of being a politician or a political leader of the whip-cracking variety that makes his party a force.

Assuming that much of this is debatable, we can add still another element. We are a self-searching people and probably have been regarding our navels too strenuously during the past few years. We have had such an outpouring of fatalism, of defeatism, of self-abasement poured upon us in essay and novel that the more sensitive have tended to feel either that it is too late or that a good refuge, after all, would be a planned, Big Brother society.

And the ultimate in our bursts of fatalism is reached by those who would disarm unilaterally, as a gesture of faith, and by those who have insisted that we must stop testing weapons so we can show the world that we are among the pure at heart. We have lost toughness of both the spirit and muscle, and there are too few around who would say, "To hell with them," in an outpouring of self-interest.

TRULY THERE has been a need for a conservative leader, a man, as Robert Welch has pictured himself, on a white horse. And he has offered a religion in a sense, and a sense of direction, purpose and toughness that has appealed to many despairing conservatives.

Unfortunately, the critics of the ideal state he pictures are Reds, Pinks or Unwitting Dupes, the latter being those who can't quite swallow Mr. Welch's philosophy or history lessons in their entirety.

And what has been achieved on a local level is no victory for conservatism,

but a build-up of name calling, insinuation and at times hysterical pressure that seems even to be destroying friendships of long standing. I may lack understanding, but I find it difficult to see what all of this has to do with conservatism or even the rooting out of Reds.

I would like, in regard to this last, to quote from J. Edgar Hoover's book "Masters of Deceit," probably the most thorough text available on communist strategy and tactics.

★ ★ ★

HOOVER ASKS that the private citizen assist the FBI in its "responsibility over matters relating to espionage, sabotage, and subversive activities . . ."

He says, however, "Stick to the facts. The FBI is not interested in rumor or idle gossip. Talebearing should always be avoided. The FBI is not interested in what a person thinks but what he does to undermine our national security.

"Don't try to do any investigating yourself. Security investigations require great care and effort. The innocent must be protected as well as the guilty identified. That is the job for the professional investigator. Hysteria, witch hunts, and vigilantes weaken our internal security."

★ ★ ★

AND later:

"As we have seen, identifying communists is not easy. They are trained in deceit and trickery and use every form of camouflage and dishonesty to advance their cause.

"For this reason we must be absolutely certain that our fight is waged with full regard for the historic liberties of this great nation. This is the fundamental premise of any attack against communism.

"Too often I have seen cases where loyal and patriotic but misguided Americans have thought they were 'fighting communism' by slapping the label of 'Red' or 'communist' on anybody who happened to be different from them or to have ideas with which they did not agree.

"Smears, character assassination, and the scattering of irresponsible charges have no place in this nation. They create division, suspicion, and distrust among loyal Americans — just what the communists want — and hinder rather than aid the fight against communism.

"Another thing. Time after time in this book I have mentioned that honest dissent should not be confused with disloyalty. A man has a right to think as he wishes: that's the strength of our form of government."

There are few, I think, who would call Mr. Hoover an "unwitting dupe."

Gentlemen:

My wife and I recently agreed to become chapter leaders of a local chapter of the JOHN BIRCH SOCIETY whose headquarters are in Belmont, Massachusetts.

There has been some controversy in the newspapers, radio and television concerning this organization, and it has been labeled by some as subversive.

While we do not find any subversive activities within the organization, before becoming further involved in the work, we would like a letter from you advising whether or not this organization is objectional or listed in your files as subversive.

[REDACTED] and I want to be on record with your agency that we are very anxious to do our part to expose and stop ^{the} communist menace, but at the same time expect your agency to advise us against the wrong group with which to associate ourselves.

May we hear from you?
